Bodmin Moor: An archaeological survey: Volume 2 Aug 23 2019

Bodmin Moor is an upland landscape, heavily protected, farmed extensively and with an increasingly light touch, and enjoyed by many as a retreat from busier modern worlds. But it is also a place of industry and the home of busy agricultural communities. Well-preserved remains of streamworking, mining, quarrying, clay working, turf cutting and more intensive farming were subjected to archaeological survey and historical research as part of the wider-ranging survey partly covered in the first volume (on prehistoric and medieval landscapes). Supplementing the survey text are aerial photographs and detailed line drawings, mainly plans

and elevations, but also reconstructions of sites and schematic representations of processes as well as large-scale maps of key areas

Benefit from Adrian Streater's years of Porsche ownership. Learn how to spot a bad car quickly and how to assess a promising one like a professional. Get the right car at the right price!

Oldsmobile W-Powered Muscle Cars Jul 15 2021 Relive Oldsmobile's most potent muscle car offerings when the simple letter W intimidated all takers. Oldsmobile's foray into the developing muscle car wars of the 1960s came as little surprise to most in the automotive industry. What was surprising was that it wasn't the first to develop it! Oldsmobile's Rocket 88 has been viewed by some as the beginning of performance offerings from automobile manufacturers. The 4-4-2 was Oldsmobile's volley back at the Pontiac GTO, and in 1966, Olds attempted to spike the ball

home with its all-new W-30 high-performance drag racing package. During the course of the next pair of decades, Oldsmobile offered the W-code on a host of platforms (the Cutlass, F-85, 4-4-2, Toronado, and Delta 88) with an assortment of engine packages (400, 455, and 350). As muscle cars fell by the wayside during the struggling 1970s, Oldsmobile continued to carry its flagship W-30 all the way through the 1980 model year. This book by muscle car historian and esteemed photographer David Newhardt revisits and celebrates Oldsmobile's legendary W-optioned performance machines. So, sit down, strap in, and let Dr. Oldsmobile do the driving.

Lemon-Aid New Cars and Trucks 2012 Dec 28 2019 Phil Edmonston, Canada's automotive "Dr. Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide he says: Audis are beautiful to behold but hell to own (biodegradable transmissions, "rodent snack" wiring, and mind-boggling depreciation Many 2011-12 automobiles have "chin-to-chest head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the rear windows are opened while underway Ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers GM's 2012 Volt electric car is a mixture of hype and hypocrisy from the car company that "killed" its own electric car more than a decade ago You can save \$2,000 by cutting freight fees and "administrative" charges Diesel annual urea fill-up scams can cost you \$300, including an \$80 "handling" charge for \$25 worth of urea Lemon-Aid's 2011-12 Endangered Species List: the Chinese Volvo, the Indian Jaguar and Land Rover, the Mercedes-Benz Smart Car, Mitsubishi, and Suzuki

Subaru Impreza Jun 25 2022 Perceived as a replacement for the long running Leone, the Impreza quickly gained a great reputation through Subaru's successful WRC program. This book covers the full story of the Impreza, from concept

through to the current production car, looking at the rally machines along the way, and illustrated throughout with contemporary material. Now with over 400 mainly color pictures and significant additional text, this is a fantastic warts and all account of an amazing car.

Lemon-Aid New Cars and Trucks 2011 Mar 23 2022 As U.S. and Canadian automakers and dealers face bankruptcy and Toyota battles unprecedented quality-control problems, Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR

gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz – rich cars, poor quality. There's only one Saturn you should buy. Toyota – enough apologies: "when you mess up, 'fess up."

The Age of the Muscle Car Aug 28 2022 A breed unlike any seen before or since, the powerful, stylish American muscle car defined an era in automotive history. This history traces the rise and fall of these great performance cars from their precursors in the 1950s through the seminal appearance of the Pontiac GTO in 1964 and then year by year to the end in the 1970s. Approachable and nontechnical yet deeply informative, it puts the bygone muscle car in its cultural and aesthetic contexts, describes developments in styling, performance and marketing, and revels in the joys of muscle car ownership in the 21st century.
