This book is a concise practical guide designed to facilitate the clinical decision-making process in the management of neonates and infants. Dermatologists and general pediatricians who offer primary care to children must be knowledgeable in managing pediatric dermatological problems, and this title provides insightful reviews of a number of common and rare dermatologic cases. Clinical cases are a key component in modern medical education, assisting the trainee or recertifying clinician to work through unusual cases using best practice techniques. Pediatric dermatology is a particularly important discipline in this regard since it is a highly visual subject requiring the reader to describe often very subtle differences in the presentation of patients and define accurately the diagnostic and management criteria to base their clinical decision-making on. Clinical Cases in Neonatal and Infant Dermatology concisely covers how to approach diagnosing and managing skin disease in the very youngest patients. Each chapter focuses on a particular case and emphasizes how to make an appropriate choice when deciding which diagnostic tool or management strategy would be most suitable. Potential complications are detailed and management tips provided to enable the reader to develop a deep understanding of how approach the care of these patients within their day-to-day clinical practice. This book therefore represents an ideal up-to-date resource for all practitioners who encounter these conditions as part of their everyday practice.*

Kitab-kitab Samawi yang diturunkan dari langit seperti Taurat, Injil dan al-Quran, masing-masing menyebut mengenai Yakjuj dan Makjuj. Al-Quran menceritakan tentang sifat dan peristiwa Yakjuj dan Makjuj dengan Zulkarnain dengan huraian penceritaan yang sempurna. Buku ini membongkar bangsa yang membawa huru-hara kepada dunia dengan berdasarkan huraian kitab Taurat, Injil dan al-Quran. Dimuatkan dengan imej, peta, ilustrasi, carta masa. The conference was jointly organized by the Biomedical Engineering Department and Sports Centre, University of Malaya. It was held in Malacca, from 28-30 September 2016. MoHE 2016 provided a good opportunity for speakers and participants to actively discuss about recent developments in a wide range of topics in the area of sports and exercise science. In total, 83 presenters and 140 participants took part in this successful conference. The largely Arabo-centric approach to the academic study of tafsir has resulted in a lack of literature exploring the diversity of Qur'anic interpretation in other areas of the Muslim-majority world. The essays in The Qur'an in the Malay-Indonesian World resolve this, aiming to expand our knowledge of tafsir and its history in the Malay-Indonesian world. Highlighting the scope of Qur'anic interpretation in the Malay world in its various vernaculars, it also contextualizes this work to reveal its place as part of the wider Islamic world, especially through its connections to the Arab world, and demonstrates the strength of these connections. The volume is divided into three parts written primarily by scholars from Malaysia and Indonesia. Beginning with a historical overview, it then moves into chapters with a more specifically regional focus to conclude with a thematic approach by looking at topics of some controversy in the broader world. Presenting new examinations of an under-researched topic, this book will be of interest to students and scholars of Islamic studies and Southeast Asian studies. This book gathers the proceedings of the Sixth International Conference on Computational Science and Technology 2019 (ICCST2019), held in Kota Kinabalu, Malaysia, on 29-30 August 2019. The respective contributions offer practitioners and researchers a range of new computational techniques and solutions, identify emerging issues, and outline future research directions, while also showing them how to apply the latest large-scale, high-performance computational methods. Buku ini adalah buku pertama di dunia yang berjaya membongkar misteri sosok Luqmanul Hakim dalam sejarah. Daripada kajian yang dijalankan oleh penulis, ternyata Luqmanul Hakim adalah ahli falsafah Athens, iaitu Socrates (469-366 SM). Tradisi hadith menyatakan Luqmanul Hakim merupakan lelaki berkulit hitam (keturunan negro) dan bekas hamba sahaya. Tetapi Socrates yang selama ini dikenal sebagai pencetus atau bapa falsafah barat, dipercayai berketurunan kulit putih Eropah. Jelas sekali perkara ini bertentangan dengan fizikal Luqmanul Hakim. Menerusi kaedah perbandingan Sinkronik-Diakronik, analisis kandungan, analisis bingkai, dan analisis komponen semantik, Muhammad Alexander @ Wisnu Sasongko menemukan adanya dua persamaan: Pertama - Bentuk fizikal Socrates sama 100% dengan Luqmanul Hakim, iaitu berkulit hitam. Kedua - Ajaran falsafah Socrates memiliki tematik sama 100% dengan nasihat Luqmanul Hakim dalam Al-Quran, menerusi surah Luqman. Kisah Zulkarnain tentu sudah tidak asing di telinga kita. Apalagi, al-Qur'an menceritakannya secara apik dalam surat al-Kahfi. Belum lagi, sejumlah hadits juga membicarakannya. Memang, kisah tentang Zulkarnain tidak secara detail. Misalnya, apakah Zulkarnain itu nama diri atau hanya gelar? Kapan ia hidup, di daerah mana ia tinggal, dan hingga mana batas wilayah kekuasaannya? Sosoknya benar-benar misterius, sehingga menimbulkan tanda tanya dan beragam tafsir. Nah, melalui kajian yang serius dan intens atas berbagai referensi, buku ini mengajak pembaca untuk mengungkap identitas Zulkarnain yang sebenarnya. Bahkan, pembaca juga diajak untuk menyelami samudra hikmah kisah Zulkarnain yang agung. Sebuah buku yang sangat penting. Selamat membaca! There is a long-running debate about whether Saudi Arabia exportation of its highly conservative form of Islam known as Wahhabism has distorted or "corrupted" more moderate forms of Islam around the world. The content covers \(but is not limited to\) the following topics: exercise science; human performance; physical activity & health; sports medicine; sports nutrition; management & sports studies; and sports engineering & technology. There are several opinions explaining the reasons that some of the great kings of the past were Dzulqarnain. A Dzulqarnain must be a human who has character. The character of a Dzulqarnain is recorded in the Qur'an, Dzulqarnain is a great king with intelligence who was able to explore the world in his time for the purpose of preaching the religion of Tawheed \(monotheism\), broadly speaking, Dzulqarnain has three ways of preaching monotheism, one of which is helping a community of people to separate them from the threat of a destructive nation by building a bimetallic barrier. There are several references regarding the location of the bimetallic barrier wall engineered by Dzulqarnain, estimation of the location of the bimetallic barrier wall, which stands in a valley between two mountains in an area that has until now been controlled by the descendants of Yafits son of the Prophet Noah This book addresses new concepts, methods, algorithms, modeling, and applications of green supply chain, inventory control problems, assignment problems, transportation problem, linear problems and new information related to optimization for the topic from the theoretical and applied viewpoints of neutrosophic sets and logic. The book is an innovatory of new tools and procedures, such as: Neutrosophic Statistical Tests and Dependent State Samplings, Neutrosophic Probabilistic Expert Systems, Neutrosophic HyperSoft Set, Quadripartitioned Neutrosophic Cross-Entropy, Octagonal and Spherical and Cubic Neutrosophic Numbers used in machine learning. It highlights the process of neutrosophication {which means to split the universe into three parts, two opposite ones \(Truth and Falsehood\), and an Indeterminate or neutral one \(I\) in between them}. It explains Three-Ways Decision, how the universe set is split into three different distinct areas, in regard to the decision process, representing: Acceptance, Noncommitment, and Rejection, respectively. The Three-Way Decision is used in the Neutrosophic Linguistic Rough Set, which has never been done before. What is the relationship between Saudi Arabia and Indonesia? For centuries, Indonesians have travelled to Saudi Arabia and have been deeply involved in education, scholarship and the creation of centres for Islamic learning in the country. Yet the impact of this type of migration has not yet been the focus of scholarly research and little is known about the important intellectual connections that now exist. This book examines Indonesian educational migrants and intellectual travellers in Saudi Arabia including students, researchers, teachers and scholars to provide a unique portrait of the religious and intellectual linkages between the two countries. Based on in-depth interviews and questionnaires, Sumanto Al Qurtuby identifies the "Indonesian legacy" in Saudi Arabia and examines in turn how the host country's influential Islamic scholars have impacted on Indonesian Muslims. The research sheds light on the dynamic history of Saudi Arabian-Indonesian relations and the intellectual impact of Indonesian migrants in Saudi Arabia. Penulisan buku ini dilakukan secara berkolaborasi yang ditulis selama sebulan sejak 7 April sampai dengan 7 Mei 2021. Few countries as culturally rich, politically pivotal, and naturally beautiful as Indonesia are as often misrepresented in global media and conversation. Stretching 3,400 miles east to west along the equator, Indonesia is the fourth most populous country in the world and home to more than four hundred ethnic groups and several major world religions. This sprawling Southeast Asian nation is also the world's most populous Muslim-majority country and the third largest democracy. Although in recent years the country has experienced serious challenges with regard to religious harmony, its trillion-dollar economy is booming and its press and public sphere are among the most vibrant in Asia. A land of cultural contrasts, contests, and contradictions, this ever-evolving country is today rising to even greater global prominence, even as it redefines the terms of its national, religious, and civic identity. The Routledge Handbook of Contemporary Indonesia offers an overview of the modern making and contemporary dynamics of culture, society, and politics in this powerful Asian nation. It provides a comprehensive survey of key issues in Indonesian politics, economics, religion, and society. It is divided into six sections, organized as follows: Cultural Legacies and Political Junctures Contemporary Politics and Plurality Markets and Economic Cultures Muslims and Religious Plurality Gender and Sexuality Indonesia in an Age of Multiple Globalizations Bringing together original contributions by leading scholars of Indonesia in law, political science, history, anthropology, sociology, religious studies, and gender studies this Handbook provides an up-to-date, interdisciplinary, and academically rigorous exploration of Indonesia. It will be of interest to students, academics, policymakers, and others in search of reliable information on Indonesian politics, economics, religion, and society in an accessible format.
