Benny Lewis, who speaks over ten languages—all self-taught—runs the largest

language-learning blog in the world, Fluent In 3 Months. Lewis is a full-time "language hacker," someone who devotes all of his time to finding better, faster, and more efficient ways to learn languages. Fluent in 3 Months: How Anyone at Any Age Can Learn to Speak Any Language from Anywhere in the World is a new blueprint for fast language learning. Lewis argues that you don't need a great memory or "the language gene" to learn a language quickly, and debunks a number of long-held beliefs, such as adults not being as good of language learners as children. Get up and running with French Easy French Step-by-Step proves that a solid grounding in grammar basics is the key to mastering a second language. You are quickly introduced to grammatical rules and concepts in order of importance, which you can build on as you progress through the book. You will also learn more than 300 verbs, chosen by their frequency of use. Numerous exercises and engaging readings help you quickly build your speaking and comprehension prowess. Coronary angioplasty is a procedure used to widen blocked or narrowed coronary arteries, the main blood vessels supplying the heart. The term 'angioplasty' means using a balloon to stretch open a narrowed or blocked artery. However, most modern angioplasty procedures

also involve inserting a short wire-mesh tube, called a stent, into the artery during the procedure. The stent is left in place permanently to allow blood to flow more freely (NHS Choices). This book is a complete guide to the practice of coronary angioplasty for practising cardiologists and trainees. Beginning with an introduction to the evolution of the technique and the fundamentals of stent design, each of the following chapters provides in depth detail on angioplasty procedures for different disorders. The final sections discuss potential complications, rehabilitation, outcomes, and the future of angioplasty. This comprehensive text is highly illustrated with clinical photographs, diagrams and tables to enhance learning. This practical grammar book is the result of 16 years of teaching online to adults and young students located all over the world. I believe that French grammar should not been a stumbling block to learning the language and should not discourage learners of French to embrace the beautiful journey of becoming fluent. Hence, I felt that it was important to

explain the grammar rules in English and in the simplest way possible without including too much grammar jargon, so that a beginner could grasp the essential elements of grammar to build sentences. Every grammar point is followed with exercises to practice what has been taught. Whenever possible, the answers are included in the back of the book (some answers are open ended questions and therefore have no right or wrong answers). This grammar book is aimed to teach A1 levels (total beginners) to the B1 level (intermediate level). Perfect for self-study, but also ideal for supplementary grammar activities in the classroom. Step by step with a teacher or on their own, French learners can learn to construct their sentences and gain plenty of practice. This ambitious undertaking is designed to acquaint students, teachers, and researchers with reference sources in any branch of English studies, which Marcuse defines as "all those subjects and lines of critical and scholarly inquiry presently pursued by members of university departments of English language and

literature." Within each of 24 major sections, Marcuse lists and annotates bibliographies, guides, reviews of research, encyclopedias, dictionaries, journals, and reference histories. The annotations and various indexes are models of clarity and usefulness, and cross references are liberally supplied where appropriate. Although cost-conscious librarians will probably consider the several other excellent literary bibliographies in print, such as James L. Harner's *Literary Research Guide* (Modern Language Assn. of America, 1989), larger academic libraries will want Marcuse's volume. - Jack Bales, Mary Washington Coll.
