An introduction to the types, physical features, behavior, and pet potential of snakes. Provides a guide for all the flora, fauna, and natural phenomena found along the coast of North America. This quirky early reader from National Geographic Kids is full of awesome animals that march (and crawl, swim, and fly) to the beat of their own drum. Full color. Presents an introduction to frogs, discussing their physical characteristics, mating habits, predators, and different species. An exciting interactive title chock-full of cool things from your own backyard, such as butterflies, hummingbirds, deer, bugs, amphibians, and even tree houses, brings National Geographic Kids signature content to a sticker and activity book format. Packed with mazes, spelling and pattern games, drawing activities, and more, kids are sure to love these pages loaded with fun. Examines the Earth's geologic history, climate, vegetation, population, food, economies, and mineral resources, and offers physical, political, and subject maps of each continent. Features a collection of famous and lesser-known photographs taken throughout the past century. Promotes the concepts that the National Geography Standards say U.S. students in grades 4 to 8 should understand, serving as a road map for students and teachers preparing for the Bee. Introduces African elephants, including what they eat, how they travel in groups, their migration patterns, and how they care for their young. A birding guidebook provides identification tips, information on behavior and nesting, six hundred locator and range maps, and new plumage and species classification data on over 750 North American birds found west of the Rocky Mountains. "Discover 1,000 cool stickers featuring awesome safari animals, like lions, elephants, giraffes, cheetahs, and more. National Geographic Kids Sticker Activity Books are loaded with skill-building puzzles and mazes, spelling and pattern games, drawing activities, photos, facts, and other activities that will keep kids entertained (and learning) for hours on end." --Provided by publisher. Examines creatures that live in the sea, including the blobfish, jellyfish, and moray eels. A collection of powerful photo-narratives from the past decade by forefront women photojournalists celebrates their spirit and ambition as reflected by such images as the landscapes of the Mongolian steppes and the war-torn battlefields of Iraq. From the award-winning author of *The First Rule of Punk* comes the story of four kids who form an alternative Scout troop that shakes up their sleepy Florida town. *"Writing with wry restraint that's reminiscent of Kate DiCamillo... a beautiful tale." --Kirkus Reviews (starred review) When three very different girls find a mysterious invitation to a lavish mansion, the promise of adventure and mischief is too intriguing to pass up. Ofelia Castillo (a budding journalist), Aster Douglas (a bookish foodie), and Cat Garcia (a rule-abiding birdwatcher) meet the kid behind the invite, Lane DiSanti, and it isn't love at first sight. But they soon bond over a shared mission to get the Floras, their local Scouts, to ditch an outdated tradition. In their quest for justice, independence, and an unforgettable summer, the girls form their own troop and find something they didn't know they needed: sisterhood. Profiles several different animals from around the world that live in different habitats. A chronology of world history ranges from the dawn of humankind to the present day, examining important events, milestones, ideas, and personalities that occurred simultaneously in different regions of the world. Shares the answers to over one thousand questions on such topics as animals, natural resources, technology, and history. A visually stunning guidebook to more than 225 cities around the world showcases such great destinations as Paris, Rome, London, Tokyo, Oslo, Denver and Abu Dhabi, providing a wealth of travel information, fun facts, personal narratives, local secrets, cultural atmosphere and much more. Offers tips and advice for how to improve bird watching skills, from choosing equipment and guides to where to watch and what features to look for when trying to identify a bird. Young readers are invited along on an African safari where they can see elephants spraying, lions playing, and hippos soaking. Celebrated National Geographic photojournalist Sartore continues his Photo Ark quest, photographing species around the world that are escaping extinction thanks to human efforts. The animals featured in these pages are either destined for extinction or already extinct in the wild but still alive today, thanks to dedication of a heroic group committed to their continued survival. Explore the star-studded cosmos with this fully updated, user-friendly skywatcher's guide, filled with charts, graphics, photographs, and expert tips for viewing -- and understanding -- the wonders of space. Stargazing's too much fun to leave to astronomers. In these inviting pages, "Night Sky Guy" Andrew Fazekas takes an expert but easygoing approach that will delight would-be astronomers of all levels. Essential information, organized logically, brings the solar system, stars, and planets to life in your own backyard. Start with the easiest constellations and then "star-hop" across the night sky to find others nearby. Learn about the dark side of the moon, how to pick Mars out of a planetary lineup, and which kinds of stars twinkle in your favorite constellations. Hands-on tips and techniques for observing with the naked eye, binoculars, or a telescope help make the most out of sightings and astronomical phenomena such as eclipses and meteor showers. Photographs and graphics present key facts in an easy-to-understand format, explaining heavenly phenomena such as black holes, solar flares, and supernovas. Revised to make skywatching even easier for the whole family, this indispensable guide shines light on the night sky--truly one of the greatest shows on Earth! Combines photography with lyrical text celebrating the animal world, in a compilation that includes works by such poets as Emily Dickinson, Robert Frost and Rudyard Kipling. The author describes her amazing journey from a sheltered childhood to a cushy job as an NFL cheerleader to her bushwhacking, death-defying rise to become a top primatologist, world-renown for her landmark discovery of a new species of lemur. The author delves into all the wonders of Yellowstone country. A popular series of guidebooks for the modern-day traveler offering information on cities and countries around the world continues, presenting up-to-date backgrounds and descriptions, detailed maps, hundreds of photographs and much more, including walking and driving tours, visitor information directories and cultural sidebars. This far-reaching reference is designed with many entry points and a visually engaging format to satisfy the curious browser, the student researcher, and the earnest knowledge seeker alike. Maps and text provide information on the geography, industries, and other vital facts of the countries of the world. Find out about the life of Rosa Parks and how her actions in Montgomery, Alabama, in 1955 helped end racial segregation in America. This book follows the same standards as other National Geographic Readers with the same careful text, brilliant photographs, and fun approach that kids love. The life story of Rosa Parks has enduring lessons to teach us and this biography should appeal to kids, parents, and teachers. Our world is constantly changing and this refreshed atlas from the map experts at National Geographic captures the state of the planet with colorful maps, easy-to-grasp stats, and lots of fun facts--the perfect reference for young kids and students. Learn all about the people, places, animals, and environments of our world in the fourth edition of this engaging atlas. It's got a fresh, kid-friendly design; fun, lively photos; and all the latest, greatest geographic and political information that make this such a valuable resource. It's the perfect reference for kids to learn about lands close to home or oceans away--ideal for classroom use, homework help, and armchair exploration. There's simply no better getaway in the United States than a visit to one of the country's 62 national parks from Alaska to the Virgin Islands, from Maine to America Samoa. Profiled in this all-new ninth edition of National Geographic's enduring and informative guide, you'll find expert travel advice, candid tips for hiking and wildlife spotting, and detailed maps to help navigate your way through America's great outdoors. Updated throughout with the latest information from park rangers and National Geographic's own acclaimed travel writers, this fully revised and comprehensive guidebook includes the newest additions to the United States park system--Indiana Dunes, White Sands, and Gateway Arch national parks. Whether you're looking to explore the underground world of Mammoth Caves or make your way through the mangroves of Everglades National Park, you'll find a destination that suits your needs, and inspiration to plan your next wild adventure. In addition to park details and descriptions, this sparkling new edition features week-long regional road trip itineraries so you can visit multiple parks in one vacation. Filled with more than 300 dazzling photographs and 80 full-color maps, this inspiring book reveals the best the United States has to offer--right in its own backyard. Looks at the important events and figures in world history, from 4000 B.C. to the present day. Published in association with the Blue

& Gray Education Society. Intricate and soothing, this elegant coloring book for adults invites creative people of all ages to dive into the colorful and complex world of animals, using the power of their own imaginations. With 50 intricate black and white illustrations, printed on perforated pages that will render them collectible, users will color and embellish the detailed wings of a dragonfly, and the intricate patterns of zebras. Armed with artist's tools, they will explore the majesty of the world's wild animals. Fans of National Geographic and newcomers to the coloring world alike will welcome this creative and relaxing journey into our natural world. Text, photographs, paintings, and maps explore the history of astronomy, the solar system, the universe, and new space discoveries. Provides physical and thematic maps of the Earth, covering such aspects as population, food, minerals, climate, politics, and energy, as well as maps of the surface of the Moon, Mars, inner and outer solar system, and universe. Introduces the life and legacy of civil rights leader Dr. Martin Luther King, Jr. The humorous and fun information about a snowy owl makes this new reading experience a treat. For digital camera and smartphone users, this easy how-to guide, written by an experienced National Geographic photographer, imparts the essentials of taking great pictures. This entertaining book from beloved National Geographic photographer and Photo Ark founder Joel Sartore shows aspiring photographers how to take great pictures, from framing and F-stops to editing and archiving. Whether you're using your phone or a DSLR camera, you'll learn the fundamentals of photography--and how to put them to work every day. In a series of short lessons, Sartore explains the basics, from choosing a camera and gear to understanding focus, exposure, composition, and lighting. Using examples from his own work, he applies the basic rules of photography to family, pet, travel, nature, and street photos, and how to get a great shot with the camera on your smartphone. Throughout the book you'll find pro tips, quick assignments, and the behind-the-camera stories of great photographs; helpful notes clarify how to use every piece of advice with your smartphone camera. Fun and informative, this practical book will be your gateway to taking great pictures.
