Planning for Power Advertising May 14 2021 This book is a step-by-step guide to producing a sound foundation for advertising: one that will serve as the springboard to inspire powerful creative expression. Rich in cases from the evolving Indian context, Planning for Power Advertising offers an understanding of how strategic advertising is created. It takes the reader through cases and analyses of what worked or did not work in the marketplace. Anand Halve involves the reader throughout in exercises with Action Points at the end of most chapters—an approach that brings alive the concepts within, and helps readers discover the theory in practice. For advertising professionals, this is a manual to create a robust advertising brief. For students of advertising and marketing, Planning for Power Advertising is a simulation exercise from which they will learn how to apply the principles that will help them in their future careers. And for professionals in areas related to advertising—such as media, event management and PR—this book provides an insight into how the strategic underpinning of advertising is built.

Advanced Automotive Fault Diagnosis Dec 29 2019 Diagnostics, or fault finding, is a fundamental part of an automotive technician's work, and as automotive systems become increasingly complex there is a greater need for good diagnostic skills. Advanced Automotive Fault Diagnosis is the only book to treat automotive diagnostics as a science rather than a check-list procedure. Each chapter includes basic principles and examples of a vehicle system followed by the appropriate diagnostic techniques, complete with useful diagrams, flow charts, case studies and self-assessment questions. The book will help new students develop diagnostic skills and help experienced technicians improve even further. This new edition is fully updated to the latest technological developments. Two new chapters have been added – On-board diagnostics and Oscilloscope diagnostics – and the coverage has been matched to the latest curricula of motor vehicle qualifications, including: IMI and C&G Technical Certificates and NVQs; Level 4 diagnostic units; BTEC National and Higher National qualifications from Edexcel; International Motor Vehicle qualifications such as C&G 3905; and ASE certification in the USA.

Biofueled Reciprocating Internal Combustion Engines Sep 25 2019 Biofuels such as ethanol, butanol, and biodiesel have more desirable physico-chemical properties than base petroleum fuels (diesel and gasoline), making them more suitable for use in internal combustion engines. The book begins with a comprehensive review of biofuels and their utilization processes and culminates in an analysis of biofuel quality and impact on engine performance and emissions characteristics, while discussing relevant engine types, combustion aspects and effect on greenhouse gases. It will facilitate scattered information on biofuels and its utilization has to be integrated as a single information source. The information provided in this book would help readers to update their basic knowledge in the area of "biofuels and its utilization in internal combustion engines and its impact Environment and Ecology". It will serve as a reference source for UG/PG/Ph.D. Doctoral Scholars for their projects / research works and can provide valuable information to Researchers from Academic Universities and Industries. Key Features: • Compiles exhaustive information of biofuels and their utilization in internal combustion engines. • Explains engine performance of biofuels • Studies impact of biofuels on greenhouse gases and ecology highlighting integrated bio-energy system. • Discusses fuel quality of different biofuels and their suitability for internal combustion engines. • Details effects of biofuels on combustion and emissions characteristics.

Tiley's Revenue Law Jun 26 2022 This is the 10th edition of John Tiley's classic textbook on revenue law, covering the UK tax system, income tax, capital gains tax, inheritance tax and corporation tax, as well as incorporating sections dealing with international and European tax, savings, charities, and - new to this edition - value added tax and stamp duties. The new edition has been comprehensively revised and fully updated with the latest case law, statutory and other developments, including the Finance Act 2021. The book's companion website provides bonus chapters on investment intermediaries, pensions, charities, and the UK's value added tax and stamp duties. The companion website will also supply annual updates to the print edition as well as study questions to help students navigate this complex subject. The book is designed for students taking modules in tax law in the final year of their law degree, or for more advanced courses. It is also a valuable resource for academics and professionals in the field. It provides an account of the rules as well as citation of the relevant literature from legal periodicals and some discussion of, or reference to, the background material in terms of policy, history or other countries' tax systems to give readers a contextual overview of the subject. Accompanying online resources for this title can be found at bloomsbury.pub/tileys-revenue-law. These resources are designed to support teaching and learning when using this textbook and are available at no extra cost.
