Is there humor in the Bible? ... Is Purgatory painful? ... Is there a dispensation for missing Mass when traveling? ... Can human beings become angels after they die? ... Why is the color blue associated with Our Lady? ... Was the Catholic Church the first one to say no to contraceptives? Over 2,000 years of tradition can lead to many questions and misunderstandings about the Catholic Faith. You are not alone if you are confused, curious, or wish to have an answer for challenging questions others may confront you with. Catholic Answers to Catholic Questions provides solid answers to hundreds of common questions asked by people just like you -- questions both big and small regarding doctrine, history, morality, the pope, saints, the sacraments, the Mass, prayer, Scripture, and much more. Be more confident in your faith. Allow the "why" to enhance the "what" you do as a Catholic. Make better decisions. Be more prepared to pass on your faith to others. Feed your curiosity. Author, theology professor, and Catholic apologist Paul Thigpen ensures the answers are not only rock-solid, but also pastoral in their approach and written in everyday, relevant language. He considers questions from real people to reveal the vast breadth and depth of our Catholic teachings. Two award-winning political scientists provide the psychological key to America's deadlocked politics, showing that we are divided not by ideologies but something deeper: personality differences that appear in everything from politics to parenting to the workplace to TV preferences, and which would be innocuous if only we could decouple them from our noxious political debate. What's in your garage: a Prius or a pickup? What's in your coffee cup: Starbucks or Dunkin' Donuts? What about your pet: cat or dog? As award-winning political scholars Marc Hetherington and Jonathan Weiler explain, even our smallest choices speak volumes about us--especially when it comes to our personalities and our politics. Liberals and conservatives seem to occupy different worlds because we have fundamentally different worldviews: systems of values that can be quickly diagnosed with a handful of simple parenting questions, but which shape our lives and decisions in the most elemental ways. If we're to overcome our seemingly intractable differences, Hetherington and Weiler show, we must first learn to master the psychological impulses

that give rise to them, and to understand how politicians manipulate our mindsets for their own benefit. Drawing on groundbreaking original research, Prius or Pickup? is an incisive, illuminating study of the fracturing of the American mind. A great asset for home-schoolers and Catholic schools alike! Countless books and articles have offered remedies for the poor learning outcomes of American schoolchildren. Virtually all of these publications share one thing in common: They propose improvements in the policies and practices controlled by adult educators. Grove believes that our children's poor learning cannot be totally the fault of educators. Our children are active participants in classrooms, so if there's a problem with how well our children are learning, then we as parents might be at fault. To discover what our part is and explore what can be done about it, Grove draws on over 100 anthropological studies of children's learning and child-rearing in China, Japan, and Korea. They reveal that those children, even the youngest ones, are highly receptive to classroom learning. Why do they come into classrooms with attentive and engaged attitudes? How did they acquire the drive to learn? Can American parents benefit from knowing how Chinese, Japanese, and Korean parents think about and carry out child-rearing? The Drive to Learn explores these questions. Some of the selections are well-known—George Washington’s letter to the Hebrew Congregation at Newport, Frederick Douglass’s “What to the Slave is the 4th of July,” Martin Luther King Jr.’s letter from Birmingham Jail—while others will be new to many readers—Horace Mann’s argument for public schools as a means of fighting inequality, Jane Addams’s perceptive analysis of gender and social class in charity work, Randolph Bourne envisioning a “Trans-National America.” *American Democracy* presents a remarkable range of insightful and eloquent American political writing, while serving as an invaluable resource for concerned citizens who wish to become better-informed participants in the ongoing drama of our democracy.
