Organic Music Societies Jul 15 2021 Archival documents and new writings on the intermedia collaborations of avant-garde jazz trumpeter Don Cherry and textile artist Moki Cherry Don Cherry and Moki Karlsson met in Sweden in the late '60s. They married and began to perform together, dubbing their mix of communal art, social and environmental activism, children's education and pan-ethnic expression "Organic Music." Their home in Tågarp became a locus of artistic production, attracting free-spirited musicians, poets, actors and artists with the promise of collective life. There, Keith Knox assembled Tågarp Publication Number One to document the collectivistic practices blooming under the Cherrys' guidance. Reproduced here, the text includes interviews with Terry Riley and Cherry, a piece on Pandit Pran Nath, a report on the Bombay Free School and a survey of the esoteric Forest University by Bengt af Kintberg. This book explores Don Cherry's work of the period through additional interviews by Knox, a piece on his Relativity Suite and an essay by Fumi Okiji. Moki's writings on her workshops are featured alongside full-color reproductions of her tapestries, used as performance environments by Don's ensembles. Cherry collaborators Bengt Berger and Christer Bothén contribute travelogues from the era.

Daphne Oram Oct 18 2021 Daphne Oram (1925-2003) was one of the central figures in the development of British experimental electronic music. Having declined a place at the Royal College of Music to become a music balancer at the BBC, she went on to become the co-founder and first director of the BBC Radiophonic Workshop. Oram left the BBC in 1959 to pursue commercial work in television, advertising, film, and theater, to make her own music for recording and performance, and to continue her personal research into sound technology - a passion she had had since her childhood in rural Wiltshire. Her home, a former oasthouse in Kent, became an unorthodox studio and workshop in which, mostly on a shoestring budget, she developed her pioneering equipment, sounds, and ideas. A significant part of her personal research was the invention of a machine that offered a new form of sound synthesis - the Oramics machine. Oram's contribution to electronic music is receiving considerable attention from new generations of composers, sound engineers, musicians, musicologists, and music lovers around the world. Following her death, the Daphne Oram Trust was established to preserve and promote her work, life, and legacy, and an archive created in the Special Collections Library at Goldsmiths, University of London. One of the Trust's ambitions has been to publish a new edition of Oram's one and only book, 'An Individual Note of Music, Sound and Electronics', which was originally published in 1972. With support from the Daphne Oram Archive, the Trust has now been able to realize this ambition. 'An Individual Note' is both curious and remarkable. When commissioned to write a book, she was keen to avoid it becoming a manual or how-to guide, preferring instead to use the opportunity to muse on the subjects of music, sound, and electronics, and the relationships between them. At a time when the world was just starting to engage with electronic music and the technology was still primarily in the hands of music studios, universities, and corporations, her approach was both innovative and inspiring, encouraging anyone with an interest in music to think about the nature, capabilities, and possibilities that the new sounds could bring. And her thinking was not limited to just the future of the orchestra, synthesizer, computer, and home studio, but ventured, with great spirit and wit, into other realms of science, technology, culture, and thought. 'An Individual Note' is a playful yet compelling manifesto for the dawn of electronic music and for our individual capacity to use, experience, and enjoy it. This new edition of 'An Individual Note' features a specially commissioned introduction from the British composer, performer, roboticist, and sound historian Sarah Angliss.

Software for People Mar 11 2021 Collection of 26 articles by well-known composer Pauline Oliveros. Articles range in variety from analytical to philosophical to mystical. A unique collection. Originally published in 1984, finally back in print.

Let's Go to Hell Apr 23 2022 The Butthole Surfers remain one of the most enigmatic bands in the history of rock music. Most of their records have no information of any kind, and often with the suggestion that you play them at 69 rpm.... They lived like nomads through much of the 1980s, and built their reputation upon tours that never ended, and shows that resembled hedonistic acid tests. They left a heap of former band members in their wake, and have often alienated as many fans as they've attracted. Here for the first time is the complete story of one of the most controversial and dangerous bands to have emerged from the ashes of the punk rock movement. 'Let's Go to Hell' compiles the scattered memories into the first comprehensive overview of the band. Featuring exclusive interviews, tons of rare and unpublished photographs, and analysis of the band's vast recorded (and unrecorded) efforts, 'Let's Go to Hell' finally tells the story that was thought (and often hoped) would never be told...

Floodgate Companion Dec 08 2020 *Floodgate Companion* is Robert Beatty's debut monograph, a cosmic and immersive collection of artwork from the renowned album cover artist.

The Making of the English Middle Class Apr 11 2021 This is the first major study of a neglected yet extremely significant subject: the London middle classes in the period between 1660 and 1730, a period in which they created a society and economy that can be seen with hindsight to have ushered in the modern world. Using a wealth of material from contemporary sources--including wills, business papers, inventories, marriage contracts, divorce hearings, and the writings of Daniel Defoe and Samuel Pepys--Peter Earle presents a fully rounded picture of the "middling sort of people," getting to the hearts of their lives as men and women struggling for success in the biggest, richest, and most middle-class city in contemporary Europe. He examines in fascinating and convincing detail the business life of Londoners, from apprenticeship through the problems and potential rewards of different occupational groups, going on to look at middle-class family, social, political and material life--from relationships with spouses, children, servants, and neighbors, to food and clothes and furniture, to sickness, death, and burial. Stimulating, scholarly, and constantly illuminating, this book is an important and impressive contribution to English social history.

Never Known Questions Jan 21 2022 *Never Known Questions* delves deep into The Residents' psyche, charting their rise from cottage industry imagineers to art pop figureheads and exploring forty plus years of chameleonic musical adventures, along with the lore and legend that has built up around the group.

Blank Forms May 01 2020 "Blank Forms is a non-profit organization dedicated to supporting emerging and underrepresented artists working in a range of time-based and interdisciplinary art practices, including experimental music, performance, dance, and sound art. We aim to establish new frameworks to preserve, nurture, and present to broad audiences the work of historic and emerging artists. Blank Forms provides artists with curatorial support, residencies, commissions, and publications to help document, disseminate, and advance their practices."--Blank Forms.

Spectroscopic Properties of Inorganic and Organometallic Compounds Feb 19 2022 *Spectroscopic Properties of Inorganic and Organometallic Compounds* provides a unique source of information on an important area of chemistry. Divided into sections mainly according to the particular spectroscopic technique used, coverage in each volume includes: NMR (with reference to stereochemistry, dynamic systems, paramagnetic complexes, solid state NMR and Groups 13-18); nuclear quadrupole resonance spectroscopy; vibrational spectroscopy of main group and transition element compounds and coordinated ligands; and electron diffraction. Reflecting the growing volume of published work in this field, researchers will find this Specialist Periodical Report an invaluable source of information on current methods and applications. Specialist Periodical Reports provide systematic and detailed review coverage in major areas of chemical research. Compiled by teams of leading experts in their specialist fields, this series is designed to help the chemistry community keep current with the latest developments in their field. Each volume in the series is published either annually or biennially and is a superb reference point for researchers.

Acid Communism Feb 07 2021 A short zine collecting an introduction to the concept by Matt Colquhoun that appeared in 'krisis journal for contemporary philosophy Issue 2, 2018: Marx from the Margins' and the unfinished introduction to the unfinished book on Acid Communism that Mark Fisher was working on before his death in 2017. "In this way 'Acid' is desire, as corrosive and denaturalising multiplicity, flowing through the multiplicities of communism itself to create alinguistic feedback loops; an ideological accelerator through which the new and previously unknown might be found in the politics we mistakenly think we already know, reinstantiating a politics to come." —Matt Colquhoun

Under My Thumb Jun 25 2022 Women write about their experiences of loving music that doesn't love them back – a feminist 'guilty pleasures'.e - a kind of feminist guilty pleasures. In the majority of mainstream writing and discussions on music, women appear purely in relation to men as muses, groupies or fangirls, with our own experiences, ideas and arguments dismissed or ignored. But this hasn't stopped generations of women from loving, being moved by and critically appreciating music, even – and sometimes especially – when we feel we shouldn't. *Under My Thumb: Songs that Hate Women and the Women Who Love Them* is a study of misogyny in music through the eyes of women. It brings together stories from journalists, critics, musicians and fans about artists or songs we love (or used to love) despite their questionable or troubling gender politics, and looks at how these issues interact with race, class and sexuality. As much celebration as critique, this collection explores the joys, tensions, contradictions and complexities of women loving music – however that music may feel about them. Featuring: murder ballads, country, metal, hip hop, emo, indie, Phil Spector, David Bowie, Guns N' Roses, 2Pac, the Rolling Stones, Bob Dylan, AC/DC, Elvis Costello, Jarvis Cocker, Kanye West, Swans, Eminem, Jay-Z, Taylor Swift, Combichrist and many more.

Nietzsche: Truth and Redemption Dec 28 2019 This challenging new reading of Nietzsche counters the highly misleading interpretation of post-modern commentators, largely under the influence of Derrida. In this powerful critique, the author reconstructs Nietzsche's relationship to Schopenhauer and Heidegger, and argues that Nietzsche was not, as the postmodernists contend, a relativist or pluralist, but that he cultivated an existential appreciation of truth.

Third International Handbook of Mathematics Education Sep 24 2019 The four sections in this Third International Handbook are concerned with: (a) social, political and cultural dimensions in mathematics education; (b) mathematics education as a field of study; (c) technology in the mathematics curriculum; and (d) international perspectives on mathematics education. These themes are taken up by 84 internationally-recognized scholars, based in 26 different nations. Each of section is structured on the basis of past, present and future aspects. The first chapter in a section provides historical perspectives ("How did we get to where we are now?"); the middle chapters in a section analyze present-day key issues and themes ("Where are we now, and what recent events have been especially significant?"); and the final chapter in a section reflects on policy matters ("Where are we going, and what should we do?"). Readership: Teachers, mathematics educators, ed.policy makers, mathematicians, graduate students, undergraduate students. Large set of authoritative, international authors.?

Mathematics Applications Jan 09 2021 The new editions of Alan Sadler's Senior Maths for Western Australia student books have been revised to fully address the Australian Curriculum -- Senior Mathematics for Western Australia. Retaining all the original 'Sadler' features that teachers and students know and trust, this series caters to students of Mathematics Applications, Mathematics Methods and Mathematics Specialist across Units 1 -- 4.

Big Ten Co-eds, Preppy Girls, and the Lost Cheerleaders Aug 23 2019 "Using a methodology that both parallels and gently ridicules the concept of stock photo agencies, New Catalogue (artists Luke Batten and Jonathan Sadler) has created a series of original editions that tap into popular culture while expanding on traditional photographic genres. This book, their first, examines elements of American iconography that are at once hilarious and vaguely unsettling: 'Big Ten Co-Eds with Ski Masks,' 'Preppy Girls with BB Guns,' and 'The Lost Cheerleaders'-- each of which hints at a subconscious desire for danger in a sterile suburban setting. With a degree of ambiguity, this work allows the images to be molded, contextualized, and ascribed narratives in hundreds of ways to suit the end-user or client (if one is to maintain the corporate analogy) who could be a journalist, advertiser or contemporary art collector"--Publisher's description.

Margaret Drabble Nov 18 2021 Surveys the life and career of the English author and examines the themes of her major novels

Golf Wang Oct 06 2020 Music fans, cultural commentators and trend-setters are all talking about a crew of hip hop skate kids from Los Angeles calling themselves Odd Future. They are redefining hip hop with their raw energy, controversial lyrics, punk attitude and skate style. Created entirely by Odd Future members, features their photography, designs, and writings. The photos are raw and immediate and fun. Hip hop authentically delivered by Tyler the Creator, Hodgy Beats, Domo Genesis and Brick Stowell.

Alpha Boys School Mar 23 2022 Facing a life of poverty, neglect, abandonment and even homelessness, young Jamaican boys are placed in a disciplinarian Catholic boarding school. With a rigorous musical training program overseen by an eccentric jazz-loving nun, the young virtuoso graduates of Alpha Boys' School went on to change the shape of music forever. It's the 1950s in Jamaica and a musical revolution is brewing. People all over Kingston dance nightly to vast outdoor sound systems blasting American rhythm and blues records across the shanty towns. In the hotels and theaters big bands are playing jazz and calypso. Street musicians are playing home-grown folk music called mento. Out of this musical stew, Jamaica will soon birth a dance music all of its own, a sound that will conquer the globe. Starting with ska in the early 1960s, followed by rocksteady, eventually arriving at reggae in 1969, a group of virtuoso graduates of a Roman Catholic boarding school spearhead a musical and cultural revolution that still reverberates around the world over half a century later. The Sisters of Mercy nuns at Alpha provided a home alongside industrial trades apprenticeships and religious indoctrination. One in particular, Sister Mary Ignatius, dedicated 64 years of her life to running the school's music program. Her deep appreciation of jazz and her sense of fun endeared her to the boys in the band, inspiring them to attain greatness. From early Jamaican jazz giants like Joe Harriott and Dizzy Reece to the greatest ska band of all time, The Skatalites, and some of reggae's most inspirational artists such as Cedric Brooks, Johnny Osbourne, Leroy Smart and Yellowman, the Alpha story is the untold history of Jamaican music. Join Heather Augustyn and Adam Reeves as they delve into the history of this remarkable institution and reveal the life and works of 47 of the greatest Alpha boys. The culmination of many combined years of work, using musicians' personal recollections and a wealth of rarely seen photographs, Alpha Boys' School: Cradle of Jamaican Music will take you to the heart of the Jamaica music story. Whether you are a lover of original ska and rocksteady, roots, dub, dancehall and beyond, these stories will take you deeper into

the music. If you enjoyed *Solid Foundation: An Oral History of Reggae* by David Katz, *Bass Culture* by Lloyd Bradley or *So Much Things To Say: The Oral History of Bob Marley* by Roger Steffens, then this is definitely for you.

More Brilliant Than the Sun May 25 2022 The classic work on the music of Afrofuturism, from jazz to jungle *More Brilliant than the Sun: Adventures in Sonic Fiction* is one of the most extraordinary books on music ever written. Part manifesto for a militant posthumanism, part journey through the unacknowledged traditions of diasporic science fiction, this book finds the future shock in Afrofuturist sounds from jazz, dub and techno to funk, hip hop and jungle. By exploring the music of such musical luminaries as Sun Ra, Alice Coltrane, Lee Perry, Dr Octagon, Parliament and Underground Resistance, theorist and artist Kodwo Eshun mobilises their concepts in order to open the possibilities of sonic fiction: the hitherto unexplored intersections between science fiction and organised sound. Situated between electronic music history, media theory, science fiction and Afrodiasporic studies, *More Brilliant than the Sun* is one of the key works to stake a claim for the generative possibilities of Afrofuturism. Much referenced since its original publication in 1998, but long unavailable, this new edition includes an introduction by Kodwo Eshun as well as texts by filmmaker John Akomfrah and producer Steve Goodman aka kode9.

Mathematics Methods Aug 28 2022 The new editions of Alan Sadler's Senior Maths for Western Australia student books have been revised to fully address the Australian Curriculum -- Senior Mathematics for Western Australia. Retaining all the original 'Sadler' features that teachers and students know and trust, this series caters to students of Mathematics Applications, Mathematics Methods and Mathematics Specialist across Units 1 -- 4.

Clarks in Jamaica Mar 30 2020 In Jamaica, Clarks are loved like no other brand. They are the island's ruling name in footwear -- the "champion shoes" -- and it has been that way for as long as anybody can remember. This book celebrates the rich history of Clarks in Jamaica, with a focus on the Jamaican reggae and dancehall musicians who have worn and sung about Clarks shoes through the years. Documenting the origins of the Clarks brand in 1825 through to the introduction of their shoes into Jamaica in the 1920s and the impact of styles such as the Desert Boot, Wallabee and Desert Trek on the island, *Clarks in Jamaica* explores how footwear made by a Quaker firm in the quiet English village of Street, Somerset became the "baddest" shoes in Jamaica and an essential part of the island's culture. Building on the success of the first release in 2011, this updated second edition includes new interviews, previously unseen photographs, insights into Jamaica's favourite styles of Clarks from former company employees, and an expanded chapter on Jamaican fashion detailing the histories of island fashion staples such as the mesh marina (string vest), Arrow shirt, knits ganzie and beaver hat. Beautifully presented and thoroughly researched, *Clarks in Jamaica* is a wonderful document of Clarks' deep roots in Jamaican culture, a fitting tribute to the rich cultural exchange that has taken place between Jamaica and the UK that will appeal as much to Jamaicaphiles and lovers of Clarks shoes as to musicologists, fashion stylists and cultural historians.

Mathematics Methods Aug 04 2020 The new editions of Alan Sadler's Senior Maths for Western Australia student books have been revised to fully address the Australian Curriculum -- Senior Mathematics for Western Australia. Retaining all the original 'Sadler' features that teachers and students know and trust, this series caters to students of Mathematics Applications, Mathematics Methods and Mathematics Specialist across Units 1 -- 4.

Betting on Horse Racing For Dummies Jun 01 2020 How to enjoy a day at the races-and bet to win! The last two years have seen a record number of Americans tune in for climatic Triple Crown races featuring Smarty Jones and Funny Cide; in 2004, television viewership jumped a whopping 61 percent over the record set in 2003, and the Belmont Stakes race itself drew a record crowd of more than 120,000! This easy-to-understand guide shows first-time visitors to the track how to enjoy the sport of horse racing-and make smart bets. It explains what goes on at the track, what to look for in horses and jockeys, how to read a racing form and do simple handicapping, and how to manage betting funds and make wagers that stand a good chance of paying off. Complete with coverage of off-track and online betting, it's just what anyone needs to play the ponies-and win! Richard Eng (Las Vegas, NV) is a racing writer and handicapper for the Las Vegas Review-Journal, a columnist for the Daily Racing Form, and the host of a horseracing radio program in Las Vegas. He was formerly a part of the ABC Sports team that covered the Triple Crown.

Hypergraphia Jun 13 2021 Spanning a duration of over thirty years, *Hypergraphia* includes previously unpublished material, as well as conversations with the influential improvisational guitarist and founding member of the group AMM, Keith Rowe and the ever-insightful writer and musicologist Marcus Boon. The volume includes aspects of Sylvian's own photographic work as well as selections by some of the most reputable and innovative artists working today and its design celebrates the longstanding collaboration between Sylvian and acclaimed designer Chris Bigg.

The Code of the Samurai Jul 27 2022 One who is a Samurai must before all things keep constantly in mind, by day and by night ... the fact that he is going to die.

Rise Up Dec 20 2021 *A 2018 BOOK OF THE YEAR* 'An inspirational must-read.' Evening Standard 'A very important book.' Will Gompertz, BBC 'A motivational, inspirational oral history.' Nikesh Shukla, iNews 'Don't sleep on it... the future is looking #Merky.' Metro _____ 'It's been a long time coming, I swear...' In four years Stormzy has risen from one of the most promising musicians of his generation to a spokesperson for a generation. Rise Up is the story of how he got there. It's a story about faith and the ideas worth fighting for. It's about knowing where you're from, and where you're going. It's about following your dreams without compromising who you are. Featuring never-before-seen photographs, lyrics and contributions from Team #Merky, Rise Up is the #Merky story, and the record of a journey unlike any other. _____

Edited and Co-written by Jude Yawson Contributions by Team #Merky Images by Kaylum Dennis

X Ray Audio Jul 03 2020 Many older people in Russia remember seeing and hearing mysterious vinyl flexi-discs when they were young. They had partial images of skeletons on them, could be played like gramophone records and were called 'bones' or 'ribs'. They contained forbidden music. X-Ray Audio tells the secret history of these ghostly records and of the people who made, bought and sold them. Lavishly illustrated in full colour with images of discs collected in Russia, it is a unique story of forbidden culture, bootleg technology and human endeavour.

Wendy Carlos Aug 16 2021 With her debut album Switched-On Bach, composer and electronic musician Wendy Carlos (b. 1939) brought the sound of the Moog synthesizer to a generation of listeners, helping to effect arguably one of the most substantial changes in popular music's sound since musicians began using amplifiers. Her story is not only one of a person who blazed new trails in electronic music for decades but is also the story of a person who intersected in many ways with American popular culture, medicine, and social trends during the second half of the 20th century and well into the 21st. There is much to tell about her life and about the ways in which her life reflects many dimensions of American culture. Carlos's identity as a transgender woman has shaped many aspects of her life, her career, how she relates to the public, and how the public has received her and her music. Cultural factors surrounding the treatment of transgender people affected many of the decisions that Carlos has made over the decades. Additionally, cultural reception and perception of transgender people has colored how journalists, scholars, and fans have written about Carlos and her music for decades.

Keith Rowe Nov 06 2020 In London, in the fall of 1965, a group of four musicians dissatisfied with the constrictions they had encountered in the British jazz scene, came together with a highly thought-out agenda to revolutionise the way music was created, rejecting rules firmly in place then (and still today) among even the most forward-looking of musicians: no repertoire, no fear of silence, 100% improvised. Keith Rowe was one of the founding members. Over 12 years in the making and via exhaustive research and interviews Brian Olewnick has traced Rowe's life from childhood to the present.

You'll Know When You Get There Sep 04 2020 As the 1960s ended, Herbie Hancock embarked on a grand creative experiment. Having just been dismissed from the celebrated Miles Davis Quintet, he set out on the road, playing with his first touring group as a leader until he eventually formed what would become a revolutionary band. Taking the Swahili name Mwandishi, the group would go on to play some of the most innovative music of the 1970s, fusing an assortment of musical genres, American and African cultures, and acoustic and electronic sounds into groundbreaking experiments that helped shape the American popular music that followed. In You'll Know When You Get There, Bob Gluck offers the first comprehensive study of this influential group, mapping the musical, technological, political, and cultural changes that they not only lived in but also effected. Beginning with Hancock's formative years as a sideman in bebop and hard bop ensembles, his work with Miles Davis, and the early recordings under his own name, Gluck uncovers the many ingredients that would come to form the Mwandishi sound. He offers an extensive series of interviews with Hancock and other band members, the producer and engineer who worked with them, and a catalog of well-known musicians who were profoundly influenced by the group. Paying close attention to the Mwandishi band's repertoire, he analyzes a wide array of recordings—many little known—and examines the group's instrumentation, their pioneering use of electronics, and their transformation of the studio into a compositional tool. From protofunk rhythms to synthesizers to the reclamation of African identities, Gluck tells the story of a highly peculiar and thrillingly unpredictable band that became a hallmark of American genius.

Dictionary of Jewish Biography Oct 25 2019 From Abraham to Saul Bellow, from Moses Maimonides to Woody Allen, from the Baal Shem Tov to Albert Einstein, this comprehensive dictionary of Jewish biographies provides a first point of entry into the fascinating richness of the Jewish heritage. Modelled on the highly acclaimed Dictionary of Christian Biography (Continuum 2001) and with the advice of leading Jewish scholars, the Dictionary of Jewish Biography provides a rapid reference to those Jewish men and women who have, over the last four thousand years, contributed to the life of the Jewish people and the history of the Jewish religion. This dictionary will prove essential for general readers interested in the evolution of Judaism from ancient times to the present day, a perfect study aid for students and teachers. Designed as an accessible reference tool, this volume is an indispensable guide for anyone interested in the history of the Jewish people - the uninitiated will become initiated; the curious will become

informed; the informed will now have a handy reference tool.

Time Flowing Backwards May 13 2021 This memoir is the fascinating and revealing story of Graeme Jefferies—one of the most inventive and influential musicians to emerge from New Zealand's vibrant independent music scene in the 1980s. *Time Flowing Backwards* spans over three decades of Jefferies' career spent with bands Nocturnal Projections, This Kind of Punishment, and The Cakekitchen as well as a solo artist. In a candid and in-depth style, Jefferies recounts his recording and songwriting process along with riveting tales from incident-filled tours with the likes of Pavement, Cat Power and the Mountain Goats. This truly original and inimitable inside story highlights intense collaboration and DIY innovation, records made in hallways and houses rather than plush studios and a dedication to produce challenging and remarkable songs.

Mathematics Specialist Jan 01 2023

Side by Side Sep 16 2021 Selected and arranged by the authors themselves, and featuring an introduction by Jarvis Cocker, *Side by Side* presents the lyrics, poems, writings and drawings of innovative musician Robert Wyatt and his creative partner, English painter and songwriter Alfie Bengé. As a founding member of influential English rock bands Soft Machine and Matching Mole, and with a solo career which has lasted for over forty years and seen him collaborate with a diverse range of artists including Bjork, Brian Eno, Carla Bley, Paul Weller and David Gilmour, his own music remains unclassifiably personal. Alfie Bengé is a visual artist, songwriter and pioneering music manager, having managed Robert's career for fifty years. She is also married to Robert. Since 1982 they have collaborated on many of Robert's most well-known songs. This unique volume celebrates one of the most enduring creative partnerships of the last half-century. 'Taken together Alfie & Robert's lyrics combine to create a humanist world-view that is at once global & particular. Take it from me: that's no mean feat.' Jarvis Cocker 'English music has produced some fascinating personalities, but few are as unusual as Robert Wyatt.' Brian Eno 'A highly idiosyncratic and intuitively melodic maverick' BBC Music

Me & Mr. Cigar Feb 28 2020 From the wild and wonderful mind of Gibby Haynes—world famous Butthole Surfers front man/lyricist and self-proclaimed eternal Texan adolescent—comes the surreal tale of seventeen-year-old Oscar Lester and his trusted dog, Mr. Cigar. Oscar and his dog have made a pretty good life for themselves, despite the fact that Oscar's family has all but vanished—his father is dead; his mother has a new boyfriend. His older sister, Rachel, fled five years ago . . . right after Mr. Cigar bit off her hand. Despite the freak accident, Oscar knows his dog is no menace. Mr. Cigar is a loyal protector: a supernatural creature that can exact revenge, communicate telepathically, and manipulate car doors and windows with ease. So, when Rachel—now twenty-two and an artist living in New York—calls out of the blue and claims she's being held hostage, Oscar sees an opportunity to make things right between them. He races north, intent on both saving Rachel and fleeing the mysterious evil forces targeting his dog. And it's only by embarking on this dual quest that Oscar starts to untangle his own life and understand the bizarre reality of Mr. Cigar. *Features original artwork by Gibby Haynes as full color endpapers and illustrations throughout the book.
