*Tom Swift and His Electric Rifle Jan 21 2022 Tom is daydreaming of African Safaris while test-firing his new Electric Rifle. It works too well and toasts a hole in his neighbor's dining room wall, prompting an outraged visit from the toastee-in-question. A quick application of cash settles ruffled feathers, and some unspecified safety features are added to the weapon, to prevent a recurrence of the accident. As luck would have it, a famous African Safari Master is in town, shopping for a new big game rifle. He hooks up with Tom and a new custom-built airship, the Black Hawk, is designed & constructed. Tom, Ned, Mr. Damon and the hunter, Mr. Durban, are off to the Dark Continent via steamship, in search of ivory and adventure. Danger encroaches at every turn, and Tom gets to use his new weapon to slay an amazing variety of beasts that swim, crawl, and stampede around him. Needless to say, the rifle is effective on smaller but no less dangerous creatures, too, and does fearful duty when the group is attacked by savage tribesmen. You can probably guess the outcome, but you'll have to read the story to be sure.*

The chill on Fleet Street is so severe that the men who run the presses for Youth's Companion are too cold to work. Despite the freeze, their editor—the vile Mr. Bassett—will not spare a shilling for coal. He is behind on paying his employees, has been accused of stealing his writers' ideas, and refuses to hire any up-and-coming literary talent, be it Oscar Wilde or Arthur Conan Doyle. It is no surprise when the editor is found murdered. The question is, which of his enemies got to him first? Doyle enlists Charles Dodgson—better known as Lewis Carroll—to look into the murder. When the police try to pin the killing on the slighted Mr. Wilde, it is up to Doyle and Dodgson to clear Wilde's name and find the true killer of the cruelest man on Fleet Street.*

*Holy Halls Hb Jan 27 2020 - A thrilling photographic account of the treasure trove of cars kept by the Mercedes-Benz Museum in Stuttgart that are not currently on display to the public The Mercedes-Benz Museum in Stuttgart is one of the largest and most visited industrial museums in the world. But the 160 or so automobiles on display are only a small part of the shiny chrome treasures that form the Mercedes-Benz Classic vehicle collection. Another 1,000 historical models are 'parked' in secret places outside Stuttgart - these secret places are called the 'Holy Halls'. This collection is the treasure trove of the brand. It has existed since 1923 and offers a comprehensive overview of the model history of Mercedes-Benz. Cars with special technology and equipment are stored here, as are the silver arrows of Caracciola, Lang and Fangio, the Pope's carriages, the state cars of the young Federal Republic of Germany or Mercedes models that became collectors' items due to their prominent previous owners. Some of these exhibits are well protected and waiting in special wooden boxes for their next use at exhibitions, fairs, events or classic car races. Others stand next to each other as silent witnesses of the past. Each time a model is modified, the collection is extended by the last vehicle of the discontinued series, which experts believe will be one of tomorrow's classic cars. The 'Holy Halls' are not open to the public; enquiries from editorial offices and TV teams have often been rejected. But, during the years 2016 to 2018, almost all the vehicles of the Mercedes collection were photographed. Thus, a unique photographic collection was created, the automobile history from more than ten decades; many of the previously unpublished photographs are exclusively available here in this book. In addition, Mercedes-Benz Classic agreed to open the 'Holy Halls' for an external photo team and provide information about the car models stored there. For the first time, it has been possible to produce a fascinating illustrated book with panoramic and detailed shots from the 'halls', and lively photo reports on cars that tell stories - from the first Benz motor car to the latest Formula 1 racing car. Equally thrilling are the stories of the unique specimens and prototypes that are stored in the 'Holy Halls': Mercedes models that never went into production are presented for the first time. The stories about the selected automobiles of the vehicle collection are supplemented by historical recordings from the Mercedes-Benz Classic archive.*
