What Kind of Day Nov 22 2019 It's a bad day for Ben. After years of earnest work,

he's been fired from his job as a speechwriter for a Philippine senator. Name tarnished and bridges burned, he steps into what he thinks is a shuttle ride home, and accidentally joins a tour of his own city. It was supposed to be a good day for Naya. Her passion is traveling, her hobby is discovering cool things to see and do, and taking people on tours of Metro Manila is her only job right now. An extra person at the last minute isn't ideal, especially if the person is a former colleague and the subject of the day's hottest political trash fire. But work is work, and she decides to let him stay in the tour. She's hoping she won't regret it. He's hoping his day turns around. What kind of day could it be? Maybe the best kind.

He explores the possible historic origins of Merlin as a Celtic king, the later literary forms of his legend in the myths of King Arthur, and his more recent manifestations in visionary works, as the prototype for characters such as Obi-Wan Kenobi in the Star Wars films, and other characters in TV and fantasy writing. Drawing on a wealth of sources from Celtic, medieval, and Renaissance times, this is the first, fully-illustrated book on Merlin, the man.

Re-Imagining Creative Cities in Twenty-First Century Asia Aug 24 2022 This book responds to the lack of Asian representation in creative cities literature. It aims to use the creative cities paradigm as part of a wider process involving first, a rapid de-industrialisation in Asia that has left a void for new development models, resulting in a popular uptake of cultural economies in Asian cities; and second, the congruence and conflicts of traditional and modern cultural values leading to a necessary re-interpretation and re-imagination of cities as places for cultural production and cultural consumption. Focusing on the 'Asian century', it seeks to recognise and highlight the rapid rise of these cities and how they have stepped up to the challenge of transforming and regenerating themselves. The book aims to re-define what it means to be an Asian creative city and generate more dialogue and new debate

around different urban issues.
