provides comprehensive analysis of the law affecting the physician-patient relationship in India. Cutting across the traditional compartments with which lawyers are familiar, medical law is concerned with issues arising from this relationship, and not with the many wider juridical relations involved in the broader field of health care law. After a general introduction, the book systematically describes law related to the medical profession, proceeding from training, licensing, and other aspects of access to the profession, through disciplinary and professional liability and medical ethics considerations and quality assurance, to such aspects of the physician-patient relationship as rights and duties of physicians and patients, consent, privacy, and access to medical records. Also covered are specific issues such as organ transplants, human medical research, abortion, and euthanasia, as well as matters dealing with the physician in relation to

other health care providers, health care insurance, and the health care system. Succinct and practical, this book will prove to be of great value to professional organizations of physicians, nurses, hospitals, and relevant government agencies. Lawyers representing parties with interests in India will welcome this very useful guide, and academics and researchers will appreciate its comparative value as a contribution to the study of medical law in the international context. • Fully solved 15 sample question Papers as per the latest pattern of 2023 for PCB • Hints & Shortcuts given for tricky questions • Latest solved paper of 2022 fully solved. • NEET Solved Papers 2021 & 2022 fully solved • Mind Map: A single page snapshot of the entire chapter for longer retention • Mnemonics to boost memory and confidence • Oswaal QR Codes: Easy to scan QR codes for online content • Tips to crack NEET • Trend Analysis: Chapter-wise A love story meant for all generations

especially the youths, this book contains comedy, romance and tragedy. Firstly the readers would feel electrified and enthusiastic before that they would laugh and at last I bet they would cry. The story is based on the fact how our society react to love and how the concept love is ill treated. Sam who wanted to become a writer and Saba who wanted to become a doctor both from a village met each other when they were students and eventually fell into love. Sam, knowing the consequences of loving someone took it a challenge. He believed he would change the perceptions of the conservative people who hate love. He promised to turn around the lives of one another to set an example. But Sam is a dull student in science subjects and Saba very brilliant. They gave lessons to each other days and nights and even exchanged high class romance. Their aims got changed, Saba who wanted to become a doctor aspires to become a writer and Sam who was dull in science subjects is now a doctor of 35 but is never

happy with his life, he is alone. Read and find out. 10 Sample Papers in each subject. 5 solved & 5 Self-Assessment Papers. As technology makes the world more accessible, it is increasingly important to develop a wide perspective on social issues as well as political, environmental, and health issues of global significance. This book offers readers a global viewpoint about medical ethics, from a variety of international

perspectives. Readers will learn about how medical ethics are established, and how they interplay with the end of life. They will evaluate medical ethics and organ transplantation, and the relationship of ethics and medical research. Essay sources include The World Medical Association, UNESCO, Behzad Hassani, Koji Masuda, and Debarati Mukherjee. With Sithannan's book 'Police Investigation-Powers, Tactics and Techniques' 4th Edition 2022, every Police Officer will be able to do a comprehensive investigation even if he/ she just follow the checklists given. The book is written in simple language, which can be easily understood by all Police Officers and will serve as a valuable tool/guide for every officer who has to investigate a crime, participate in the All India Police Duty Meet etc. This is a more exhaustive treatise than his initial one, prepared when he was working in the Police Training College and which is still used by Investigating Officers all over

the state of Tamil Nadu. In his present work titled 'Police Investigation: Powers, Tactics and Techniques', the author has meticulously catalogued the tools available to a police officer to become a successful investigator. He has carefully listed the duties of Police Officers at various stages of the investigation and the legal and statutory supports officially available to an investigating officer. The book contains 25 chapters and 4 annexures. In all the chapters, the author describes the problems at hand in elaborate detail, supported by relevant statistical and legal data, drawn from authentic sources. The first chapter includes a discussion on the development of settled society, the origin of law in society and the emergence of military and police in developing societies. In the following chapters, the author has given an exhaustive account of the role and powers of Police in the registration of offences and taking up of the investigation. He has also discussed problems

encountered by a Police Officer during the investigation, the trial till the judgement. The book dexterously deals with problems such as the jurisdiction of a Police Officer, the dying declaration of victims, the conducting of inquest, arrest, interrogation and confession of the accused, etc. Apart from Police Officers, Advocates, Law and Judicial Officers would also find this book very useful as a reference book. The reference to judgements pertaining to a host of criminal cases during the period 1965-2018 merit careful study by the guardians of Law. The checklist provided at the end of each chapter can serve as a ready-reckoner to the Police Officers at various stages of the investigation. A trainee and a veteran equally will find this book a useful aid. To cite an example, under chapter 14, "Arrest", he has cited 37 landmark judgements. By reading these fourteen pages alone one can avert many a pitfall. While writing this book, the academic pursuit of the author is in full bloom,

as he has drawn valuable and authenticated data from various enactments, official documents, court judgements and a vast domain of related literature of national and international significance. Moreover, in this scholarly work, the author does not limit himself to expressing his sentiments of fellowship to the investigating Police Officers but also is concerned more about their legitimate and authorized duties, responsibilities, jurisdiction, rights of the accused and the natural processes of the long arm of the law. That the Author's utopian ideal of no innocent person should be punished and no offender should go unpunished can be seen to dominate the whole message of the book. For this purpose, the Author has taken extra pains to give a balanced treatment of the whole problem of crime and its investigation.
