A New York Times bestseller! A pioneering and timely study of how to navigate life's biggest transitions with meaning, purpose, and skill Bruce Feiler, author of the New York Times bestsellers *The Secrets of Happy Families* and *Council of Dads*, has long explored the stories that give our lives meaning. Galvanized by a personal crisis, he spent the last few years crisscrossing the country, collecting hundreds of life stories in all fifty states from Americans who'd been through major life changes—from losing jobs to losing loved ones; from changing careers to changing relationships; from getting sober to getting healthy to simply looking for a fresh start. He then spent a year coding these stories, identifying patterns and takeaways that can help all of us survive and thrive in times of change. What Feiler discovered was a world in which transitions are becoming more plentiful and mastering the skills to manage them is more urgent for all of us. The idea that we'll have one job, one relationship, one source of happiness is hopelessly outdated. We all feel unnerved by this upheaval. We're concerned that our lives are not what we expected, that we've veered off course, living life out of order. But we're not alone. *Life Is in the Transitions* introduces the fresh, illuminating vision of the nonlinear life, in which each of us faces dozens of disruptors. One in ten of those becomes what Feiler calls a lifequake, a massive change that leads to a life transition. The average length of these transitions is five years. The upshot: We all spend half our lives in this unsettled state. You or someone you know is going through one now. The most exciting thing Feiler identified is a powerful new tool kit for navigating these pivotal times. Drawing on his extraordinary trove of insights, he lays out specific strategies each of us can use to reimagine and rebuild our lives, often stronger than before. From a master storyteller with an essential message, *Life Is in the Transitions* can move readers of any age to think deeply about times of change and how to transform them into periods of creativity and growth. Making dramatic life changes can be difficult. The true secret to life-long transformation, according to certified professional counselor Bill O'Hanlon, is to take baby steps; small, subtle changes will yield profound and lasting results when added together. In this concise book, O'Hanlon shares his simple formula for making the small changes that lead to big shifts: Change the Doing, Change the Viewing, and Change the Setting. Each

simple concept is illustrated with examples of everyday challenges with easy-to-implement experiments for affecting transformation, as in this example from "Change the Viewing": Don't expect, be happy: Ken Keyes developed a simple strategy to be happy: Expect everyone and everything to be exactly as it is. When you are upset, he suggests, it is only because your expectations haven't been fulfilled and you are demanding that reality be as you want it to be, rather than how it is. So expect things to be as they are, and you'll be happy. For the next day or so, every time something happens within you or out in the world that could upset you, shift into expecting it to be exactly as it is. Tell yourself it is exactly as it is supposed to be. As a licensed marriage and family therapist and the author of more than thirty books, O'Hanlon understands that it often takes only simple adjustments to create a better life. With a therapist's keen understanding of what works, O'Hanlon offers straightforward advice that is reminiscent of chatting with a dear friend for achieving simple yet significant life changes. In this empowering book, Robert E. Quinn, author of the highly successful and influential *Deep Change*, gives readers the courage to use personal transformation to positively impact their home life, work life, and communities -- to be what he refers to as "inner-directed and outer-focused." We are all potential change agents, but most of us are trapped by belief that we as individuals cannot make a difference. Informed by the teachings of Jesus, Gandhi, and Martin Luther King, Jr. -- three of the most successful change agents ever -- Quinn outlines eight steps each of us can take to move ourselves and others to the highest levels of excellence. Following his advice, each of us can access and apply the power that lies within us in ways that will change our world for the better. Regardless of your leadership position or the relationship you have with others, when you speak--your words influence lives Award-winning author James Watkins examines biblical and behavioral principles for persuasive communication and the practical ways you can enhance your leadership of others through the power of the written and spoken word. The things we tell ourselves affect how well or poorly our path in life goes. It's time to flip the script on the internal stories you tell yourself and live life on your terms. Most of the "self-stories" you tell yourself—the kind of person you say you are and the things you are capable of—are invisible to you because they have become such a part of your everyday mental routine that you don't even recognize they exist. Yet, these self-stories influence everything you do, everything you say, and everything you are. *Choose Your Story, Change Your Life* will help you take complete control of your self-stories and create the life you've always dreamed you'd have. Author Kindra Hall offers up a new window into your psychology, one that travels the distance from the frontiers of neuroscience to the deep inner workings of your thoughts and feelings. In *Choose Your Story, Change Your Life*, Kindra will help you: Uncover the truth of how you have created the life you have; Challenge everything you think you know about how your life has been built; Uncover the clear steps you can take to create the life you want; Take control of your self-story to become the author of who you are; and Live your life in a way you never have before. This eye-opening, but applicable journey will transform you from a passive listener of these limiting, unconscious thoughts to the definitive author of who you are and everything you want to be. Changing your life is as simple as choosing better stories to tell yourself. If you can change your story, you can change your life. *Coaching to Change Lives* details why and how athletic programs should address the development of good, old-fashioned values in the young people they serve. The book features a step-by-step, proven curriculum for teaching such time-tested values as self-discipline, responsibility, accountability, leadership, and loyalty. The curriculum is designed to help young people be better prepared to face the challenges of today's world. In his major investigation into the nature of humans, Peter Sloterdijk presents a critique of myth - the myth of the return of religion. For it is not religion that is returning; rather, there is something else quite profound that is taking on increasing significance in the present: the human as a practising, training being, one that creates itself through exercises and thereby transcends itself. Rainer Maria Rilke formulated the

drive towards such self-training in the early twentieth century in the imperative 'You must change your life'. In making his case for the expansion of the practice zone for individuals and for society as a whole, Sloterdijk develops a fundamental and fundamentally new anthropology. The core of his science of the human being is an insight into the self-formation of all things human. The activity of both individuals and collectives constantly comes back to affect them: work affects the worker, communication the communicator, feelings the feeler. It is those humans who engage expressly in practice that embody this mode of existence most clearly: farmers, workers, warriors, writers, yogis, rhetoricians, musicians or models. By examining their training plans and peak performances, this book offers a panorama of exercises that are necessary to be, and remain, a human being. Explains that choices made while facing life's circumstances can determine happiness and success, describing how successful people display similar patterns in thinking. This book "was inspired by Eva Kor, a child survivor of Auschwitz. She always stressed to young audiences that even though a child, they had the power to change the world. Easy, simple gestures-- from picking up a piece of trash on the sidewalk, tidying a bedroom, accepting someone who is different, [and] other gestures of kindness and thoughtfulness--can make a big difference"-- The distinctive group of forty colleges profiled here is a well-kept secret in a status industry. They outdo the Ivies and research universities in producing winners. And they work their magic on the B and C students as well as on the A students. Loren Pope, director of the College Placement Bureau, provides essential information on schools that he has chosen for their proven ability to develop potential, values, initiative, and risk-taking in a wide range of students. Inside you'll find evaluations of each school's program and personality to help you decide if it's a community that's right for you; interviews with students that offer an insider's perspective on each college; professors' and deans' viewpoints on their school, their students, and their mission; and information on what happens to the graduates and what they think of their college experience. Loren Pope encourages you to be a hard-nosed consumer when visiting a college, advises how to evaluate a school in terms of your own needs and strengths, and shows how the college experience can enrich the rest of your life. A sampling of titles available from Patagonia Books. Patagonia Books is intended as a way to advance our love of books as well as nature and a reflective life. We publish a select number of titles on wilderness, wildlife, and outdoor sports that inspire and restore connection to the natural world. We also present books that raise awareness about not only the environmental challenges our world faces, but suggest ways that we can work together to slow the disintegration of our planet. This includes immediate activities, such as strategies to reduce our carbon footprint, as well as more in-depth examinations of the meanings of affluence, consumerism, and capitalism in the 21st Century. This insightful book conveys the author's passion for communication and gets to the heart of how to do it. Discover the thrill of applying the seven proven concepts - and seeing the results! Also contains sample lesson plans. A great tool for your PDA or Desktop Prospective college students and their parents have been relying on Loren Pope's expertise since 1995, when he published the first edition of this indispensable guide. This new edition profiles 41 colleges—all of which outdo the Ivies and research universities in producing performers, not only among A students but also among those who get Bs and Cs. Contents include: Evaluations of each school's program and "personality" Candid assessments by students, professors, and deans Information on the progress of graduates This new edition not only revisits schools listed in previous volumes to give readers a comprehensive assessment, it also addresses such issues as homeschooling, learning disabilities, and single-sex education. THE SCHOOL OF LIFE IS DEDICATED TO EXPLORING LIFE'S BIG QUESTIONS IN HIGHLY-PORTABLE PAPERBACKS, FEATURING FRENCH FLAPS AND DECKLE EDGES, THAT THE NEW YORK TIMES CALLS "DAMNABLY CUTE." WE DON'T HAVE ALL THE ANSWERS, BUT WE WILL DIRECT YOU TOWARDS A VARIETY OF USEFUL IDEAS THAT ARE GUARANTEED TO STIMULATE, PROVOKE, AND CONSOLE. We all want to live in a better world, but sometimes it feels like we lack the ability to make a difference. Author, broadcaster, and journalist John-Paul Flintoff offers a powerful reminder that through the generations, society has been transformed by the actions of individuals who understood that if they didn't like something, they could change it. Combining fresh new insights from history and other disciplines, this book will give you a sense of what might just be possible, as well as the inspiration and the courage you need to go about improving and changing the world we live in. This is an up-to-the-moment, engaging, multicultural introduction to education and teaching and the challenges and opportunities they

present. Together, the four authors bring a rich blend of theory and practical application to this groundbreaking text. Jeannie Oakes is a leading education researcher and former director of the UCLA teacher education program. Martin Lipton is an education writer and consultant and has taught in public schools for 31 years. Lauren Anderson and Jamy Stillman are former public school teachers, now working as teacher educators. This unique, comprehensive foundational text considers the values and politics that pervade the U.S. education system, explains the roots of conventional thinking about schooling and teaching, asks critical questions about how issues of power and privilege have shaped and continue to shape educational opportunity, and presents powerful examples of real teachers working for equity and justice. Taking the position that a hopeful, democratic future depends on ensuring that all students learn, the text pays particular attention to inequalities associated with race, social class, language, gender, and other social categories and explores teachers role in addressing them. The text provides a research-based and practical treatment of essential topics, and it situates those topics in relation to democratic values; issues of diversity; and cognitive, sociocultural, and constructivist perspectives on learning. The text shows how knowledge of education foundations and history can help teachers understand the organization of today's schools, the content of contemporary curriculum, and the methods of modern teaching. It likewise shows how teachers can use such knowledge when thinking about and responding to headline issues like charter schools, vouchers, standards, testing, and bilingual education, to name just a few. Central to this text is a belief that schools can and must be places of extraordinary educational quality and institutions in the service of social justice. Thus, the authors address head-on tensions between principles of democratic schooling and competition for always-scarce high-quality opportunities. Woven through the text are the voices of a diverse group of teachers, who share their analyses and personal anecdotes concerning what teaching to change the world means and involves. Click Here for Book Website Pedagogical Features: Digging Deeper sections referenced at the end of each chapter and featured online include supplementary readings and resources from scholars and practitioners who are addressing issues raised in the text. Instructor's Manual offers insights about how to teach course content in ways that are consistent with cognitive and sociocultural learning theories, culturally diverse pedagogy, and authentic assessment. New to this Edition: " Beyond the what and how of preaching is the all-important why of preaching. Mike Fabarez contends persuasively that unless a sermon makes a difference in the lives of its hearers, the preacher and the congregation have missed the point. No matter how much information is communicated, unless application is central throughout the message, the sermon has failed to be biblical. In fifteen brief chapters, the author demonstrates how the goal of changing lives can permeate the planning, preparation, presentation, and pastoral follow-through of every sermon. And in the process, the preacher's life will be changed, too. Here is a book that is accessible, brief, highly practical, and ultimately life-changing. It includes: -a Prayer Guide for Preaching -a Sample Message Prep Prayer Team Schedule -a Preaching Evaluation form Most of us can recall teachers who changed our lives, teachers who arrived to teach us what we needed to know just when we needed to know it. The amazing thing about such people is they change us so that we become ourselves. It's as if they have a magical ability to know us better than we know ourselves. How does this happen? Where does the power of great teaching come from? In *Teachers Who Change Lives*, leading Australian educationists Andrew Metcalfe and Ann Game cast new light on the processes of teaching and learning. The authors argue that outstanding teachers do not mould students by pushing them towards the achievement of externally based measurements of excellence (the 'perfect TER score or bust' model), but instead encourage them to reach their full potential by teaching them to follow their passions and interests. In interviews, some of Australia's most respected names—including Stephanie Alexander, Dawn Casey, Greg Chappell, Betty Churcher, Helen Garner, Shane Gould and Michael Kirby—reveal the significant classroom experiences and influential teachers that helped shape their futures. A book for parents of school-age children, for teachers and those interested in becoming teachers, and for all those who remember how teachers changed their lives. Why getting results should be every nonprofit manager's first priority A nonprofit manager's fundamental job is to get results, sustained over time, rather than boost morale or promote staff development. This is a shift from the tenor of many management books, particularly in the nonprofit world. *Managing to Change the World* is designed to teach new and experienced nonprofit managers the fundamental skills of effective management, including: managing

specific tasks and broader responsibilities; setting clear goals and holding people accountable to them; creating a results-oriented culture; hiring, developing, and retaining a staff of superstars. Offers nonprofit managers a clear guide to the most effective management skills Shows how to address performance problems, dismiss staffers who fall short, and the right way to exercising authority Gives guidance for managing time wisely and offers suggestions for staying in sync with your boss and managing up This important resource contains 41 resources and downloadable tools that can be implemented immediately. The ultimate book of recommended reading lists, hand-picked by book buyers nationwide! This Parable exclusive includes recommendations from popular authors and a personal growth library list featuring both classic and contemporary must-reads. Plus, a topical resource list indexes books by subject matter geared for those ministering to others. "Introducing a spelling test to a student by saying, 'Let's see how many words you know,' is different from saying, 'Let's see how many words you know already.' It is only one word, but the already suggests that any words the child knows are ahead of expectation and, most important, that there is nothing permanent about what is known and not known." — Peter Johnston Sometimes a single word changes everything. In his groundbreaking book *Choice Words*, Peter Johnston demonstrated how the things teachers say (and don't say) have surprising consequences for the literate lives of students. Now, in *Opening Minds: Using Language to Change Lives*, Peter shows how the words teachers choose affect the worlds students inhabit in the classroom, and ultimately their futures. He explains how to engage children with more productive talk and to create classrooms that support not only students' intellectual development, but their development as human beings. Grounded in research, *Opening Minds: Using Language to Change Lives* shows how words can shape students' learning, their sense of self, and their social, emotional and moral development. Make no mistake: words have the power to open minds – or close them. All his life, Derek Evans felt a spiritual pull to be a part of something greater than himself, but it wasn't until he and a friend embarked on a transformational trip to LA's infamous skid row that he found his true calling. They returned home with a plan to build a mission-minded business that would change the world—one T-shirt at a time. When their "Spread Love, It's the Nashville Way" grassroots campaign to raise money for people recovering from homelessness and addiction caught the attention of celebrities like Lady Gaga and Miley Cyrus, it went viral and ignited a global movement to end homelessness, child hunger, and human trafficking. *Made to Change the World* is both an inside look at one man's passionate drive to make a difference, and a call to action for anyone who has ever dreamed of being a part of something that changes the world. The new edition of an international bestseller helps individuals and organizations shift to a new mindset that will improve performance, spark collaboration, accelerate innovation, and make your life and the lives of everyone around you better. Without even being aware of it, many of us operate from an inward mindset, a single-minded focus on our own goals and objectives. This book points out the many ways, some quite subtle and deceptive, that this mindset invites tension and conflict. But incredible things happen when people switch to an outward mindset. They intuitively understand what coworkers, colleagues, family, and friends need to be successful and happy. Their organizations thrive, and astonishingly, by focusing on others they become happier and more successful themselves! This new mindset brings about deep and far-reaching changes. The *Outward Mindset* presents compelling true stories to illustrate the gaps that individuals and organizations typically experience between their actual inward mindsets and their needed outward mindsets. And it provides simple yet profound guidance and tools to help bridge this mindset gap. This new edition includes a new preface, updated case studies, and new material covering Arbinger's latest research on mindsets. In the long run, changing negative behavior without changing one's mindset doesn't last—the old behaviors always reassert themselves. But changing the mindset that causes the behavior changes everything. "Chock full of biblical wisdom - you'll find yourself underlining line after line, page after page. -- Marty Machowski, Author, *Long Story Short* and *The Gospel Story Bible*. Reveals the effect that education can have on positive social change by examining the life of a conductor of the Los Angeles Philharmonic and the unique program that nurtured his talent back home in Venezuela and its current availability in the U.S. 15,000 first printing. Personal narrative and its significance for social change is a prominent topic in the psychological and wider social sciences. Yet while the importance of narrative for social change is commonly assumed by narrative researchers, no single text addresses it exclusively and from a variety of scholarly perspectives. *Stories Changing Lives* explores the strong and qualified significance of personal stories and how they catalyze and contribute to social change. The first of the book's three sections examines the embeddedness of personal narratives within larger narratives, and how these narratives shift towards justice. The second section considers how narrative language supports and generates social change. Finally, the concluding section addresses the ways in which re-narrations of the past taking place in the present, and narrations of the future using the present and past, impact social change. *Stories Changing Lives* sets out the theory and methodology underpinning a range of narrative projects that are committed to progressive change, delineating the strengths and limitations of that research. Chapters focus on projects in Africa, South and North America, and Europe, and bring to the fore the multiplicity of stories, narrative multimodalities, and the importance of intersectionality; they also highlight the interdisciplinarity, historical reach, and transnationalism of narrative research. This volume will further develop our understanding of generating narratives and pursuing social change as two intertwined processes that exemplify the personally and socially transformative characteristics of politics. *Choice Recommended Read* This volume tackles the critical question of whether people change or whether they remain relatively constant across the lifespan. Much existing literature in psychology has largely endorsed the concept of stability. Indeed, in many people's minds, the person is understood to be set in stone, as a function of early socialization and reaching a particular stage of development, evolutionary processes, or traits that are hard-wired from the beginning by genes and biology. However, in recent years, important scientific developments in theory and research concerning the psychology of change have emerged. In contrast to the commonly held conception of the individual as fixed, this research illustrates how malleable people are—showing much behavioral plasticity. The chapters in this volume, written by scholars at the cutting-edge of research into the psychology of change, showcase these developments with the aim of advancing knowledge of the field and encouraging further research. Topics addressed include brain function, cognitive performance, personality, psychological well-being, collective action to achieve social change, responses to life stressors, and political change. The message is clear—the culture we live in, what happens to us along the way, and who we think we are and want to be, can all change people. *The Strategies and Skills Learning and Development (SSLD)* system is an action-oriented model for enabling clients in social work, health, mental health, and human services settings to address their needs and life goals. In *Learning to Change Lives*, author A. Ka Tat Tsang introduces SSLD's powerful framework and practice, which has been developed based on three decades of experience in psychotherapy, counselling, education, training, consultation, and community service. *Learning to Change Lives* provides detailed, step-by-step guidelines for SSLD intervention – starting with engagement with the client, assessment, translating problems into intervention plans, systematic learning and development of appropriate strategies and skills. Key practice procedures are described clearly and illustrated by case examples, specific instructions, and sample worksheets. Aimed at clinical practitioners, mental health professionals, social workers, and other human service professionals, this book can be used as a manual by practitioners and as a textbook for courses and training programs. Something new and important is afoot. Nonprofit and philanthropic organizations are under increasing pressure to do more and to do better to increase and improve productivity with fewer resources. Social entrepreneurs, community-

minded leaders, nonprofit organizations, and philanthropists now recognize that to achieve greater impact they must adopt a network-centric approach to solving difficult problems. Building networks of like-minded organizations and people offers them a way to weave together and create strong alliances that get better leverage, performance, and results than any single organization is able to do. While the advantages of such networks are clear, there are few resources that offer easily understandable, field-tested information on how to form and manage social-impact networks. Drawn from the authors' deep experience with more than thirty successful network projects, *Connecting to Change the World* provides the frameworks, practical advice, case studies, and expert knowledge needed to build better performing networks. Readers will gain greater confidence and ability to anticipate challenges and opportunities. Easily understandable and full of actionable advice, *Connecting to Change the World* is an informative guide to creating collaborative solutions to tackle the most difficult challenges society faces. The main idea for the production of this book appeared after realizing how the beliefs of others were constantly making me lose money and delaying my life in what regards reaching my goals, even leading me to fail in businesses I had just started. The awareness to this fact was extremely frustrating but also difficult to control for a multitude of reasons, namely, because we can't always detect who such people are, and also because, even when doing so, we may not be able to remove them from our life. The only way to solve this problem effectively consists in the creation of a system that can rearrange the different patterns of our existence at once and through the focus in one area only, preferably of a material nature, as it is the case with money. The content presented here comes from the premise that, if our thoughts interfere with our fate, the thoughts of others, operating by default, can have a greater influence over such fate. Have you ever noticed how happy some people are when you fail, as if they were already expecting it? Or how sympathetic some individuals appear to be when you are poor? They are the same ones resenting your happiness and abundance when you later in life become successful, and then claiming the most absurd things to prove that you are unworthy of what you get, and this, while finding excuses to remove themselves from your reality. This social paradigm is so obvious, that another, contradicting this common behavior, had to be present too. I found it and later decided to create a system to help me apply it. After seeing immediate results manifesting in my own life, even as I was creating this book — due to the fact that I was reading the exercises in my mind while preparing the content — I concluded that the application of this system would be very useful for the many readers that I have spread all over the globe. Find your purpose. Make a change. If you're not happy, not fulfilled, feel empty and lack motivation, make a change. Don't exist. Live. Turn things around and live a happy, successful, fulfilling life. Go on, you deserve to. Hypnotist and celebrity life-coach Benjamin Bonetti is an expert in addressing limiting beliefs, unlocking purpose and driving success. In *How to Change Your Life* he shows us how to uncover our 'thing' - how to discover what we should be doing with our lives and how to make that happen. With Benjamin's help we can leap over hurdles, bash through barriers and drive forward towards successful and fulfilment. You will learn; How to discover your 'thing' - your purpose How to unleash your true potential by clearing out past beliefs and barriers. The secrets of high achievers and how to implement them yourself The real reasons why people underachieve The call to make the world a better place is inherent in the Christian belief and practice. But why have efforts to change the world by Christians so often failed or gone tragically awry? And how might Christians in the 21st century live in ways that have integrity with their traditions and are more truly transformative? In *To Change the World*, James Davison Hunter offers persuasive--and provocative--answers to these questions. Hunter begins with a penetrating appraisal of the most popular models of world-changing among Christians today, highlighting the ways they are inherently flawed and therefore incapable of generating the change to which they aspire. Because change implies power, all Christian eventually embrace strategies of political engagement. Hunter offers a trenchant critique of the political theologies of the Christian Right and Left and the Neo-Anabaptists, taking on many respected leaders, from Charles Colson to Jim Wallis and Stanley Hauerwas. Hunter argues that all too often these political theologies worsen the very problems they are designed to solve. What is really needed is a different paradigm of Christian engagement with the world, one that Hunter calls "faithful presence"--an ideal of Christian practice that is not only individual but institutional; a model that plays out not only in all relationships but in our work and all spheres of social life. He offers real-life examples, large and small, of what can be accomplished through the practice of "faithful presence."

Such practices will be more fruitful, Hunter argues, more exemplary, and more deeply transfiguring than any more overtly ambitious attempts can ever be. Written with keen insight, deep faith, and profound historical grasp, *To Change the World* will forever change the way Christians view and talk about their role in the modern world. A dare between friends leads to startling revelations and simmering tensions in the latest novel from the author of *Wedding Girl*. Eloise is happy with her life as a successful private chef. She has her clients, her corgi, and a recipe for the world's most perfect chocolate cream pie. What more could she need? But when her long-lost trio of high school friends reunites, Eloise realizes how lonely she really is. Eloise, Lynne, and Teresa revamp their senior-class assignment and dare one another to create a list of things to accomplish by the time they each turn forty in a few months. Control freak Lynne has to get a dog, Teresa has to spice up her marriage, and Eloise has to start dating again. Enter Shawn, a hunky ex-athlete and the first man Eloise could see herself falling for. Suddenly forty doesn't seem so lonely—until a chance encounter threatens the budding romance and reveals the true colors of her friends. Will the bucket listers make it to forty still speaking to one another? Or do some friendships come with an expiration date? Readers Guide and Recipes Included How to make disciples using hospitality Deep down, every Christian wants to make a difference. But for many of us, the years come and go and we never do. The good news is: change can be as simple as opening your front door. The Simplest Way to Change the World is about biblical hospitality and its power for the gospel. Since people will sooner enter a living room than a church, hospitality is a natural and effective way to build relationships for Christ. You'll learn: How the home can be a hub for community How hospitality leads to joy, purpose, and belonging How it grows families to love the things of God How it's not about being the perfect host How to be hospitable regardless of your living space Hospitality is a beautiful legacy of the church, and a great way to make disciples. As you open your life up to others, you share in the very character of God and experience His joy. And you get to witness lives change—including your own. Includes 20+ creative ideas for hospitality, plus questions for small groups The Strategies and Skills Learning and Development (SSLD) system is an action-oriented model for enabling clients in social work, health, mental health, and human services settings to address their needs and life goals. Hal Urban, author of the much-loved bestsellers *Life's Greatest Lessons* and *Positive Words, Powerful Results*, gives us his third book of inspirational and practical wisdom on leading a more meaningful and more joyful life. With *Choices That Change Lives*, Hal reminds us that our lives are the result of our choices and the most important choices we make become our character traits, the ones that lead to fulfillment and peace of mind. He illuminates fifteen character traits that help us more fully develop our capacity to live rich and rewarding lives. He assures us that it's never too late to change, to break the chains of self-defeating attitudes and habits, and challenges us to dig a little deeper -- to grow in such qualities as humility, patience, empathy, and courage - - and to renew ourselves daily. "On some days your dreams may seem too far away to realize... Listen to the whispers of those that came before..." People throughout history have taken giant steps toward improving the world—but even the smallest step makes a difference. A wonderful and inspiring gift, *Giant Steps to Change the World* encourages readers to follow in the footsteps of those who came before, to reject fears of inadequacy, and to ponder what they can contribute to society. A dare between friends leads to startling revelations and simmering tensions in the latest novel from the author of *Wedding Girl*. Eloise is happy with her life as a successful private chef. She has her clients, her corgi, and a recipe for the world's most perfect chocolate cream pie. What more could she need? But when her long-lost trio of high school friends reunites, Eloise realizes how lonely she really is. Eloise, Lynne, and Teresa revamp their senior-class assignment and dare one another to create a list of things to accomplish by the time they each turn forty in a few months.

Control freak Lynne has to get a dog, Teresa has to spice up her marriage, and Eloise has to start dating again. Enter Shawn, a hunky ex-athlete and the first man Eloise could see herself falling for. Suddenly forty doesn't seem so lonely—until a chance encounter threatens the budding romance and reveals the true colors of her friends. Will the bucket listers make it to forty still speaking to one another? Or do some friendships come with an expiration date? Readers Guide and Recipes Included **YOU HOLD THE POWER TO CHANGE YOUR LIFE** Over the last fifteen years, Helen Chong has negotiated millions of dollars of real estate transactions and grossed hundreds of millions of dollars in equity for her clients. Though her successes might appear easily won, in reality she painstakingly built a career, family, and home unlike any she herself had ever known. Motivated by an early life of financial hardship, Helen moved to the United States from Hong Kong by herself in search of the American Dream. Using her own resourcefulness and her unique mindset, she approached each obstacle with optimism and hope. In this book, she shares her struggles with an honesty that inspires others to face their own challenges with the same determined attitude. Interspersed with tales of her pursuit of the American Dream, she demonstrates how she secured her financial security so that her readers and clients can discover their own path to freedom. A "Chicken Soup" collection of 52 inspiring stories about remarkable dads. What they do. What they say. How they change the lives of their kids. Each story is shared with us by a daughter or son (age 4 to 81). This book is filled with family photos. The writing style is unique. It flows like melted butter and reads with a rhythm and smoothness rarely seen. Read about the dad who coldly fired his son from the family business...but then helped that young man to a fabulous life. Or the father and son trucking along together on a dusty back road...and what happened with that Playboy Magazine they found in the dirt. Your heart will go out to four-year old Janie Hite. She was born with serious medical problems that will endure for life. Read her story about a dad who reached out desperately in the middle of the night to save her life. Endorsed by Harvey Mackay ("Swim with the Sharks" fame) and Mark Victor Hansen ("Chicken Soup" fame), this may be the best book of 2013.
