Kevin Tavin's book personifies a journey through art education at the beginning of the twentieth-first century. Starting with advancing critical pedagogy and visual studies, the book establishes a path for the movement of visual culture. It then attempts to wrestle with speculative angels and search for liminal apparitions within theory and practice of visual culture. This includes struggling to create a theoretical framework and position specific examples for art education. The essays begin to shift from a critical pedagogy perspective to one informed by Lacanian psychoanalytic theory. The second part of the book embodies an attempt to turn visual culture and art education on its head, so to speak. In total, the book may be read as an assemblage of ideas, provocations, and suggestions for cannibalizing theory and self-cannibalizing practice of art education, as we move toward a post-visual culture era, as well as a personal and professional challenge to know, and remain in doubt. This book contains Cotton Mather's writings on medicine, who saw illness in a spiritual context and provided a combination of scientific and spiritual treatments for diseases. From the Modern Library's new set of beautifully repackaged hardcover classics by Truman Capote—also available are *Breakfast at Tiffany's* and *Other Voices, Other Rooms* (in one volume), *In Cold Blood*, and *The Complete Stories* Perhaps no twentieth-century writer was so observant and graceful a chronicler of his times as Truman Capote. *Portraits and Observations* is the first volume devoted solely to all the essays ever published by this most beloved of writers. Included are such masterpieces of narrative nonfiction as "The Muses Are Heard" and the short nonfiction novel "Handcarved Coffins," as well as many long-out-of-print essays, including portraits of Mae West, Humphrey Bogart, and Marilyn Monroe. From his travel sketches of Brooklyn, New Orleans, and Hollywood, written when he was twenty-two, to the author's last written words, "Remembering Willa Cather," composed the day before his death in 1984, *Portraits and Observations* puts on display the full spectrum of Truman Capote's brilliance. Certainly Capote was, as Somerset Maugham famously called him, "a stylist of the first quality." But as the pieces gathered here remind us, he was also an artist of remarkable substance. A gorgeously illustrated co-publication with Christine Burgin by "one of the world's great essayists" (*The New York Times*). With a guide to the illustrations by Mary Wellesley. Angels have soared through Western culture and consciousness from Biblical to contemporary times. But what do we really know about these celestial beings? Where do they come from, what are they made of, how do they communicate and perceive? The celebrated essayist Eliot Weinberger has mined and deconstructed, resurrected and distilled centuries of theology into an awe-inspiring exploration of the heavenly host. From a litany of angelic voices, Weinberger's lyrical meditation then turns to the earthly counterparts, the saints, their lives retold in a series of vibrant and playful capsule biographies, followed by a glimpse of the afterlife. Threaded throughout *Angels & Saints* are the glorious illuminated grid poems by the eighteenth-century Benedictine monk Hrabanus Maurus. These astonishingly complex, proto-"concrete" poems are untangled in a lucid afterword by the medieval scholar and historian Mary Wellesley. In this "raucous, moving, and necessary" (*San Francisco Chronicle*) story by a Pulitzer Prize finalist, the De La Cruzes, a family on the Mexican-American border, celebrate two of their most beloved relatives during a joyous and bittersweet weekend. National Bestseller and National Book Critics Circle Award finalist *A New York Times* Notable Book / One of the Best Books of the Year from National Public Radio, American Library Association, *San Francisco Chronicle*, *BookPage*, *Newsday*, *BuzzFeed*, *Kirkus Reviews*, *St. Louis Post-Dispatch*, *Literary Hub* "All we do, mija, is love. Love is the answer. Nothing stops it. Not borders. Not death." In his final days, beloved and ailing patriarch Miguel Angel de La Cruz, affectionately called Big Angel, has summoned his entire clan for one last legendary birthday party. But as the party approaches, his mother, nearly one hundred, dies, transforming the weekend into a farewell doubleheader. Among the guests is Big Angel's half brother, known as Little Angel, who must reckon with the truth that although he shares a father with his siblings, he has not, as a half gringo, shared a life. Across two bittersweet days in their San Diego neighborhood, the revelers mingle among the palm trees and cacti, celebrating the lives of Big Angel and his mother, and recounting the many inspiring tales that have passed into family lore, the acts both ordinary and heroic that brought these citizens to a fraught and sublime country and allowed them to flourish in the land they have come to call home. Teeming with brilliance and humor, authentic at every turn, *The House of Broken Angels* is Luis Alberto Urrea at his best, and cements his reputation as a storyteller of the first rank. "Epic . . . Rambunctious . . . Highly entertaining." --*New York Times* Book Review "A raucous, moving, and necessary book . . . Intimate and touching . . . the stuff of legend." --*San Francisco Chronicle* "An immensely charming and moving tale." --*Boston Globe* Trieste Publishing has a massive catalogue of classic book titles. In this pioneering study, Deryn Rees-Jones argues that the poetic traditions of the 20th century must be radically re-thought in light of the formal and thematic experimentation of three generations of women poets. Collects twenty of the poet's essays on the author's experiences in Italy, baseball, writers from Blake to Heaney, the craft of writing, and other subjects *This Is A New Release Of The Original 1899 Edition*. The fictionalized Los Angeles of television's Angel is a world filled with literature—from the all-important Shansu prophecy that predicts Angel's return to a state of humanity to the ever-present books dominating the characters' research sessions. This collection brings together essays that engage Angel as a text to be addressed within the wider fields of narrative and literature. It is divided into four distinct parts, each with its own internal governing themes and focus: archetypes, narrative and identity, theory and philosophy, and genre. Each provides opportunities for readers to examine a wide variety of characters, tropes, and literary nuances and influences throughout all five televised seasons of the series and in the current continuation of the series in comic book form. NATIONAL BESTSELLER • A coming-of-age classic, acclaimed by critics, beloved by readers of all ages, taught in schools and universities alike, and translated around the world—from the winner of the 2019 PEN/Nabokov Award for Achievement in International Literature. *The House on Mango Street* is the remarkable story of Esperanza Cordero, a young Latina girl growing up in Chicago, inventing for herself who and what she will become. Told in a series of vignettes-sometimes heartbreaking, sometimes deeply joyous-Sandra Cisneros' masterpiece is a classic story of childhood and self-discovery. Few other books in our time have touched so many readers. "Cisneros draws on her rich

[Latino] heritage ... and seduces with precise, spare prose, creat[ing] unforgettable characters we want to lift off the page. She is not only a gifted writer, but an absolutely essential one.” —The New York Times Book Review When I was a child in New York my mother rescued a stray dog dodging cars in Manhattan. I grew up with that dog. We were inseparable. When she died in 1977 at age eighteen I could not contemplate replacing her. However, in 1990 someone called to say shed found an abandoned dog following the mailman in the rain. Shed named her Lucy and asked if Id like to adopt her. I said Id be right over. Out came Lucy, acting like shed known me forever. Lucywho looks exactly like my childhood dog. Whose name was Lucky. My best friend returned. Lucys presence in my life is a gift from above. She is an incredible friend and teacher. She has shown me the meaning of unqualified love, and, since her blindness, perfect acceptance in the present moment. She has spoken volumes without uttering one word. She embodies simplicity, innocence and magic. Crawling home exhausted from a world full of woe, Lucy has brought tears of laughter, comfort and joy. To many a dog is just a dog. An object. Its hard to fathom those who have not allowed themselves true communion with a pure, loving being. A higher life form, a dog. God spelled backwards. Dogs express what we are here to learn. These are poems and essays about beautiful Lucy, now sixteen, and some of her friends. Poems and essays about the joys and sorrows of life with my now elderly best friend; meditations on the anguish of physical decline, and on coming to terms with mortality. In this collection of essays, consummate poet Wallace Stevens reflects upon his art. His aim is not to produce a work of criticism or philosophy, or a mere discussion of poetic technique. As he explains in his introduction, his ambition in these various pieces, published in different times and places, aimed higher than that, in the direction of disclosing "poetry itself, the naked poem, the imagination manifesting itself in its domination of words." Stevens proves himself as eloquent and scintillating in prose as in poetry, as he both analyzes and demonstrates the essential act of repossessing reality through the imagination. Buffy the Vampire Slayer transcended its cult-comic roots to achieve television success, spawning the spinoff series Angel and an academic movement along the way. This scholarly treatment takes a multidisciplinary approach to Buffy's fandom, which has expressed itself through fiction, videos, music, art, and other media. Ten essays analyze the sociology and anthropology of the fan community and how it uses the Internet to share its passion. A gorgeous new edition of the New York Times bestseller that has sold more than a million copies. "A golden conjunction of heaven and earth...reminding us that there are angels in every religion." -The Washington Post "As far as angels are concerned, now you see them, now you don't. A Book of Angels gives us a lovely, sustained glimpse." -Chicago Tribune When Sophy Burnham wrote A Book of Angels, she inspired a phenomenon. An instant bestseller when it was originally published in 1990, this beautiful book not only tells the extraordinary true stories of present-day encounters with angels, but also traces the study of angels throughout history and in different cultures. Burnham writes about the powerful male angels, Buddhist bodhisattvas, Islamic angels, Hindu Apsaras, the mysterious angels of the Jewish Kabbalah, cherubim, seraphim, guardian angels, the angel of death, and others. What are angels? What do they look like? Whom do they choose to visit? Why do they appear sometimes and not others, and would you recognize one if it appeared before you? With great feeling, Burnham offers an eloquent report from the place where earth and heaven meet. A wondrous journey into the world of angels, this book is a song of praise to life. The three essays that comprise this volume explore literary representations of the 'True Womanhood' ideology, a narrative through which nineteenth-century women could invest their existence and their role in the world with meaning and purpose. In Victorian America, middle-to-upper-middle-class women were not admitted to centers of public power. Being relegated to the private sphere, i.e., the domestic milieu, they had only one socially respectable function - that of a wife and mother - while the masculine sphere of action was the public one, the realm of business and politics. This rigid role differentiation, which affirmed the social supremacy of men over women, was allegedly sanctioned by God and by nature as well. Being divinely ordained, it would tolerate no refutation: as Barbara Welter perceptively noted, "If anyone, male or female, dared to tamper with the complex virtues, which made up True Womanhood, he was damned immediately as an enemy of God, of civilization and of the Republic". In Mentor and Muse, a collection of twenty-nine insightful essays by some of today's leading poetic minds, editors Blas Falconer, Beth Martinelli, and Helena Mesa have brought together an illuminating anthology that draws upon both established and emerging poets to create a one-of-a-kind resource and unlock the secrets of writing and revising poetry. Gathered here are numerous experts eager to share their wisdom with other writers. Each author examines in detail a particular poetic element, shedding new light on the endless possibilities of poetic forms. Addressed within are such topics as the fluid possibilities of imagery in poetry; the duality of myth and the personal, and the power of one to unlock the other; the surprising versatility of traditional poetic forms; and the pleasure of collaboration with other poets. Also explored in depth are the formative roles of cultural identity and expectations, and their effect on composition; advice on how to develop one's personal poetic style and approach; the importance of setting in reading and meaning; and the value of indirection in the lyric poem. Challenges to conventional concepts of beauty are examined through Shakespeare's sonnets, and the ghost of Longfellow is called upon to guide students through the rewards and roadblocks of writing popular poetry. Poetic persona is demystified through Newton's law of gravity, while the countless permutations of punctuation are revealed with analysis of e. e. cummings and W. S. Merwin. The essays include the full text of the poems discussed, and detailed, relevant writing exercises that allow students the opportunity to directly implement the strategies they have learned. While many advanced topics such as authenticity, discordant music, and prosody are covered, this highly readable volume is as user-friendly as it is informative. Offering a variety of aesthetics and approaches to tackling the issues of composition, Mentor and Muse takes poets beyond the simple stages of poetic terms and strategies. These authors invite students to explore more advanced concepts, enabling them to draw on the traditions of the past while at the same time forging their own creative paths into the future. Chosen as one of the "Best Books for Writers" by Poets & Writers magazine Look up towards the heavens and open your mind to the infinite, for it is there that you will see the colourful multifaceted world of winged messengers - Gods, Angels, Fallen Angels and Demons. BOTH SIDES OF HEAVEN is a collection of 18 essays by some of the foremost modern esoteric writers, occult scholars and magicians. In their personal contributions they share their experiences, research and unique insights into the spiritual realms of the mysterious beings who have played such an important and inspirational role in human spiritual history. From the nature of the daimons of the Graeco-Roman world, the Zoroastrian Ahuras and Daevas, the seductive Lilith and mighty Lucifer, through to the Fallen Angels of the Bible and the Book of Enoch, and their children the Nephilim, we find that these powerful beings are harbingers of change. In this anthology their magical natures are explored through the works of Renaissance magicians such as Dr John Dee and Edward Kelley, Dr Thomas Rudd and more recently Madeline Montalban, as well as in that of the experiences of the contributors themselves. The ceremonies and conjurations of grimoires such as the Key of Solomon, Goetia and Grimorium Verum are considered, as well as adaptations thereof and simpler, personal encounters. When you look at Both Sides of Heaven seeking wisdom and knowledge from the wings of ethereal messengers, you will see legions of angels and demons, archangels, fallen angels, old gods and even a few faeries and green butterflies. And maybe, they will be looking back at you too. Excerpt from Angels Wings a Series of Essays on Art and Its Relation to Life There are some curious points of resemblance in these two passages from Millet and Whitman, which we may note just here. There is that idea of the necessity, the inevitableness, the absolute direct ness of all good art-work, as they conceived it, which is at the farthest pole from the elaborate study of artificial effects and the grandiose style. Based on refractions of earlier beliefs, modern angels - at once terrible and comforting, frighteningly other and reassuringly beneficent - have acquired a

powerful symbolic value. This interdisciplinary study looks at how humans conversed with angels in medieval and early modern Europe, and how they explained and represented these conversations. Leading critics, scholars, and theater practitioners consider the most talked-about play of the 1990s A novel based on the action Battle of Gettysburg. On the fraught bonds between daughters and their fathers, women and the patriarchywomen patriarchy In this beguiling, incisive book, critically acclaimed writer Katherine Angel examines the place of fathers in contemporary culture with her characteristic mix of boldness and nuance, asking how the mixture of love and hatred we feel toward our fathers—and patriarchal father figures—can be turned into a relationship that is generative rather than destructive. Moving deftly between psychoanalysis from Freud to Winnicott, cultural visions of fathering from King Lear to Ivanka Trump, and issues from incest to MeToo, Angel probes the fraught bond of daughters and fathers, women and the patriarchal regime. What, she asks, is this discomfiting space of love and hate—and how are we to reckon with both fealty and rebellion? As in her earlier book Tomorrow Sex Will Be Good Again, Angel proves herself to be one of the most perceptive feminist writers at work today. The ever-popular "Whedonverse" television shows--Buffy the Vampire Slayer, Angel, Firefly and Dollhouse--have inspired hundreds of articles and dozens of books. Curiously, the focus of much of the scholarship invokes philosophical, ethical, metaphysical and other cerebral perspectives. Yet, these shows are action-adventure shows, telling stories through physical bodies of many varied and unique forms. Characters fight and die, suffer grave injuries and traumas, and are physically transformed. Their bodies bear the brunt of their battles against evil, corruption and injustice. Through 17 insightful and captivating essays, this collection centers the physical spectacle of these televisual series. Chapters examine how both disabled and super-powered individuals navigate their differing levels of ability; how the practice of medicine and medical practitioners are represented; and how wellness is understood and depicted, both physically and mentally. Other essays focus on storylines involving specific body parts, the intersection of literal and metaphorical trauma and the processes of recovery from injury, illness and impairment. Each author offers a unique and thought-provoking analysis in an area previously under-explored or altogether missing from existing scholarship on the Whedonverse. The fictionalized Los Angeles of television's Angel is a world filled with literature—from the all-important Shansu prophecy that predicts Angel's return to a state of humanity to the ever-present books dominating the characters' research sessions. This collection brings together essays that engage Angel as a text to be addressed within the wider fields of narrative and literature. It is divided into four distinct parts, each with its own internal governing themes and focus: archetypes, narrative and identity, theory and philosophy, and genre. Each provides opportunities for readers to examine a wide variety of characters, tropes, and literary nuances and influences throughout all five televised seasons of the series and in the current continuation of the series in comic book form.
