The Town is part of the The Awakening Land trilogy, which traces the transformation of Ohio from wilderness to farmland to the site of modern industrial civilization, all in the lifetime of one character. Continues the saga of Sayward Lockett Wheeler, who marries the educated New Englander, Portious, and bears him eight children. As pioneer, wife, and mother, she struggles to create a home in the wilderness for her family. Henry Free, they called him now, or Frey in the dialect; and they knew him well in all the Pennsylvania land his own

Palatine fellow countrymen had settled. They had even sent him to represent them in the Congress at Washington. Captain Free, they said, when they thought how he had fought for the freedom of the colonies a year before the Declaration of Independence. But few of them remembered that he had been Henner Dellicker in the old country, where he was born beside the Neckar; or the tale of his voyage to the new land in the crowded and starved emigrant ship; or of his indentured service in the rich Bayley house in Philadelphia; or of the cruel discipline that Miss Amity visited upon him; or how he fled the King's jailers to the wild frontier, and returned later to settle his accounts with Miss Amity in a way he had not expected. In this novel, the author of *The Trees* has written of those early Americans who were among his own forebears—the sturdy, courageous, hard-working, liberty-loving Palantine Germans who with the Alsatians and Swiss came to farm in Pennsylvania and stayed to win their collective freedom on the battlefields of the Revolution. As a footnote to history *The Free Man* is freshly revealing of an important but unfamiliar aspect of our growth to nationhood and the part played in it by the founding fathers of the Pennsylvania Dutch, their “little Declaration of Independence” as early as April and May 1775, and their introduction and development of that great American influence, the pioneer rifle. This novel by one of America's foremost writers—and perhaps the most truly American of all—is rock-based in values and virtues which most of the time seem to have disappeared from our fiction, if not from American life itself. The story of a storekeeper turned

minister, *A Simple Honorable Man* is the fictional record of a life spent in the service of others, a life bringing the power of simple goodness to obscure, sometimes earthy and violent people. Harry Donner (the father in Mr. Richter's previous novel, *The Waters of Kronos*) stands in this novel as a man of integrity engaged in the day-by-day activities of son, husband, father, friend, and counselor in an age when home and family exerted moral conviction and social authority. Written with Conrad Richter's customary grace of style and purity of vision, *A Simple Honorable Man* joins the long list of his moving and evocative portrayals in fiction of American life. A "chronicle of a white girl captive of the Indians returned against her will to her white home . . . Her reception here, her rejection and that of her Indian son by her Caucasian father and sister . . . the conflicts of her Indian upbringing with the white way are related." "They moved along in the bobbing, springy gait of a family that followed the woods as some families follow the sea." In that first sentence Conrad Richter sets the mood of this magnificent epic of the American wilderness. Toward the close of the eighteenth century the land west of the Alleghenies and north of the Ohio river was an unbroken sea of trees. Beneath them the forest trails were dark, silent, and lonely, brightened only by a few lost beams of sunlight. Here the Lucketts, a wild, woodsfaring family, lived their roaming life, pushing ever westward as the frontier advanced and as new settlements threatened their isolation. Richter has written, not a historical novel, of which there are so many, but a novel of authentic early American

life, of which there are so few. It is the primitive story of Worth Lockett, the hunter, and of Jary, his woman; of Genny, Wyitt, Achsa, and Sulie, their woods-wild children; of the bound boy and the Solitary and Jake Tench; but principally of the oldest girl, Sayward Lockett, whose people as far back as she knew had always been hunters and gunsmiths to hunters, but who, through the quiet, growing, and yet tragic oppression of the trees, turns her back at last on her life as a hunter's child and becomes a tiller of the soil. This novel of great lyrical beauty and high excitement tells the story of the transition of American pioneers from the ways of the wilderness to the ways of civilization. Here is the true American epic. Here is the raw adventure, swift and cruel in its episodes; but here too is the poetry of loneliness. Here is a portrait of frontier life as it really must have seemed to the pioneers. Here in short is a masterpiece by the man who gave us *The Sea of Grass*. This novel follows the amazing journey of Joe Green, a military veteran and DoD engineering contractor who has questions about his own strange experiences and questions about secret technologies which he learns of in his work on black projects. Joe progressively discovers more about amazing Top Secret government research into UFOs and extraterrestrials. Journeying to Area 51, his life is on the line as he, a reporter, and a fellow scientist seek to reveal the truth about the government conspiracy to suppress knowledge of extraterrestrial intervention in our evolution. Will US military security stop them beaming their message to the world? Will Joe Green sacrifice himself to

protect humanity? Alien Rapture - written as science-fiction - is based on the life of Edgar A. Fouche - a whistleblower who has disclosed information about the TR3B - an advanced triangular aircraft. He has used a fictionalized story to disclose other information he had been given, while protecting his sources. His Family is a novel by Ernest Poole. Roger Gale is a widower who struggles to deal with the way his daughters and grandchildren respond to a changing society in 1910 New York. An intellectual and stimulating story! An adventurous story of a frontier boy raised by Indians, The Light in the Forest is a beloved American classic. When John Cameron Butler was a child, he was captured in a raid on the Pennsylvania frontier and adopted by the great warrior Cuyloga. Renamed True Son, he came to think of himself as fully Indian. But eleven years later his tribe, the Lenni Lenape, has signed a treaty with the white men and agreed to return their captives, including fifteen-year-old True Son. Now he must go back to the family he has forgotten, whose language is no longer his, and whose ways of dress and behavior are as strange to him as the ways of the forest are to them. Born out of wedlock herself, 16-year-old Chariter had one firm goal in mind - marriage for herself and legitimacy for her children. Of this second novel in Conrad Richter's great trilogy, Louis Bromfield wrote: "The Fields continues the life of Sayward after her strange marriage to the 'educated' New Englander Portious, through the raising of their family of eight children. But it is much more than that; it is also the tale of the slow battle and eventual victory over the Trees and that relentless forest which even

today marches in and takes over an Ohio field that has been left untilled for a year or two. Bit by bit, through hard work and in hardship, the forest is conquered and the villages emerge into the light surrounded by fields of great fertility. . . . "The story is told with a feeling of poetry and the picturesque turn of language which characterized the speech of the frontier and can still be heard in the Ohio country districts . . . Sayward, the heroine, is the portrait of a simple, eternal woman dominating in an instinctive way a husband who is far more educated and subtle than herself. The children are real children, each with his own personality. . . . "It [The Fields] has beauty, form, historical significance, and at the same time reality and the magic which accompanies illusion." It's 1776, and the Revolutionary War is raging. Fourteen-year-old Nathan Wade is a patriot, but he's too young to join the fight. Then his cousin David Bushnell comes to town with a secret. David has designed a water machine that can explode bombs underwater. And his mission is to launch it against the British warships in New York harbor. Nate reluctantly agrees to help David build the weapon of war -- dubbed the American Turtle. Although he's terrified of water and worried about getting caught, when unlikely circumstances put Nate at the center of the action, he must face the murky waters of his fears head-on. Based on actual historical events, this adventure story captures the drama of the first submarine used in naval warfare and the struggles of a teenager overcoming self-doubt. "At the time it was first published in 1962, it framed such an urgent appeal to the American conscience that it

actually prompted the creation of the Appalachian Regional Commission, an agency that has pumped millions of dollars into Appalachia. Caudill's study begins in the violence of the Indian wars and ends in the economic despair of the 1950s and 1960s. Two hundred years ago, the Cumberland Plateau was a land of great promise. Its deep, twisting valleys contained rich bottomlands. The surrounding mountains were teeming with game and covered with valuable timber. The people who came into this land scratched out a living by farming, hunting, and making all the things they need-including whiskey. The quality of life in Appalachia declined during the Civil War and Appalachia remained "in a bad way" for the next century. By the 1940s, 50s, and 60s, Appalachia had become an island of poverty in a national sea of plenty and prosperity. Caudill's book alerted the mainstream world to our problems and their causes. Since then the ARC has provided millions of dollars to strengthen the brick and mortar infrastructure of Appalachia and to help us recover from a century of economic problems that had greatly undermined our quality of life."-Print ed.

The memoir of Daniel Parker (1781-1861) is an invaluable primary source for post-revolutionary and antebellum American history, an itinerant preacher's account of the frontier's diverse and evolving religious landscape, and an engaging human story.

Hiding her clandestine activities behind the persona of a model Nazi soldier's wife at the height of World War II, Sigrid Schroeder dreams of her former Jewish lover and risks everything to hide a mother and two young children who she believes might be her lover's family. Here, in

the first novel of Conrad Richter's Awakening Land trilogy, the Lucketts, a wild, woods-faring family, lived their roaming life, pushing ever westward as the frontier advanced and as new settlements threatened their isolation. Sayward, a pioneer in Ohio's forest, helps clear and farm the land and watches the town develop. Anyone who has ever created a garden knows that it is a process replete with drama. For Beverley Nichols (1898-1983), making a new garden in a London suburb in the years just before World War II was positively operatic in its emotional trajectory." A town under quarantine during the 1918 flu epidemic must reckon with forces beyond their control in a powerful, sweeping novel of morality in a time of upheaval "An American variation on Albert Camus' The Plague."—Chicago Tribune NAMED ONE OF THE BEST BOOKS OF THE YEAR BY USA TODAY AND CHICAGO TRIBUNE • WINNER OF THE JAMES FENIMORE COOPER PRIZE FOR HISTORICAL FICTION Deep in the mist-shrouded forests of the Pacific Northwest is a small mill town called Commonwealth, conceived as a haven for workers weary of exploitation. For Philip Worthy, the adopted son of the town's founder, it is a haven in another sense—as the first place in his life he's had a loving family to call his own. And yet, the ideals that define this outpost are being threatened from all sides. A world war is raging, and with the fear of spies rampant, the loyalty of all Americans is coming under scrutiny. Meanwhile, another shadow has fallen across the region in the form of a deadly virus striking down vast swaths of surrounding communities. When Commonwealth votes to quarantine itself against contagion, guards are posted at the

single road leading in and out of town, and Philip Worthy is among them. He will be unlucky enough to be on duty when a cold, hungry, tired—and apparently ill—soldier presents himself at the town's doorstep begging for sanctuary. The encounter that ensues, and the shots that are fired, will have deafening reverberations throughout Commonwealth, escalating until every human value—love, patriotism, community, family, friendship—not to mention the town's very survival, is imperiled. Inspired by a little-known historical footnote regarding towns that quarantined themselves during the 1918 epidemic, *The Last Town on Earth* is a remarkably moving and accomplished debut. Lutie Brewton, a cultivated lady from the city, leaves her husband, children, and life on a huge cattle ranch to return to the city. Twenty years later after her youngest son is killed, she returns to the man who loves her in spite of everything. From the author of *The Personal History of Rachel DuPree* (soon to be a major motion picture)! “This second engaging novel from Weisgarber . . . has shades of Willa Cather, Sinclair Lewis, and Conrad Richter.”— Publishers Weekly, starred review

Young pianist Catherine Wainwright flees the fashionable town of Dayton, Ohio, in the wake of a terrible scandal. Heartbroken and facing destitution, she finds herself striking up correspondence with a childhood admirer, the recently widowed Oscar Williams. In desperation, she agrees to marry him, but when Catherine travels to Oscar's farm on Galveston Island, Texas—a thousand miles from home—she finds she is little prepared for the life that awaits her. The island is remote, the weather sweltering, and Oscar's little boy Andre is

grieving hard for his lost mother. And though Oscar tries to please his new wife, the secrets of the past sit uncomfortably between them. Meanwhile, for Nan Ogden, Oscar's housekeeper, Catherine's sudden arrival has come as a great shock. For not only did she promise Oscar's first wife that she would be the one to take care of little Andre, but she has feelings for Oscar that she is struggling to suppress. And when the worst storm in a generation descends, the women will find themselves tested as never before. *The Promise*, now available in paperback, received rave reviews from critics and captured the hearts of readers worldwide. Against the backdrop of the devastating Galveston hurricane of 1900, Ann Weisgarber tells a heartbreaking story with two unforgettable voices. Skyhorse Publishing, as well as our Arcade, Yucca, and Good Books imprints, are proud to publish a broad range of books for readers interested in fiction—novels, novellas, political and medical thrillers, comedy, satire, historical fiction, romance, erotic and love stories, mystery, classic literature, folklore and mythology, literary classics including Shakespeare, Dumas, Wilde, Cather, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home. The powerful story-telling voice that has carried so many readers back into the world of the American frontier is heard again in these eight tales of pioneers and pioneer days by the author of *The Sea of Grass*, *The Light in the Forest*, *The Waters of Kronos* and *The Town*. Each story captures the force

and sweep of our past in all its fierce reality, bringing us the strong, vigorous, unforgettable men and women of a simpler, harsher, more heroic time. The title story gives the collection its unifying theme, that of the frontier marriage, the "rawhide knot"—the couple bound together by the rough exigencies of pioneer life. A young girl, Sayward Hewett, has walked with her family from Pennsylvania to a settlement in the Ohio wilderness, and she is afraid of nothing. One night the men of the settlement—drunk, bent on real devilment, hardly less wild after a day's carousing than the panthers lurking just beyond the handful of log cabins—decide to "hatch up a marryin'" between an old maid and a shy, outcast, book-learned young lawyer from back East. But the girl Sayward, facing the whole lot of them, determined that she will marry their scapegoat bridegroom, wins her own victory. In "Smoke Over the Prarie," a marriage seems to presage—indeed, to precipitate—the downfall of a great baron of the Old West. In "Early Americana," and eighteen-year-old boy, trapped in a Comanche uprising, finds himself ambushed by love. In all of these stories, love and violence are yoked together by the challenge of life on the frontier. Here is the physical and emotional landscape of that world, with its vast spaces, its elemental struggles, its quality both of legend and of history, brought to us with the power and breadth that have given Conrad Richter's work its enduring place in American fiction. This is a new release of the original 1926 edition. Oakley Hall's legendary Warlock revisits and reworks the traditional conventions of the Western to present a raw, funny, hypnotic, ultimately devastating picture of American

unreality. First published in the 1950s, at the height of the McCarthy era, Warlock is not only one of the most original and entertaining of modern American novels but a lasting contribution to American fiction. "Tombstone, Arizona, during the 1880's is, in ways, our national Camelot: a never-never land where American virtues are embodied in the Earps, and the opposite evils in the Clanton gang; where the confrontation at the OK Corral takes on some of the dry purity of the Arthurian joust. Oakley Hall, in his very fine novel Warlock has restored to the myth of Tombstone its full, mortal, blooded humanity. Wyatt Earp is transmogrified into a gunfighter named Blaisdell who . . . is summoned to the embattled town of Warlock by a committee of nervous citizens expressly to be a hero, but finds that he cannot, at last, live up to his image; that there is a flaw not only in him, but also, we feel, in the entire set of assumptions that have allowed the image to exist. . . . Before the agonized epic of Warlock is over with—the rebellion of the proto-Wobblies working in the mines, the struggling for political control of the area, the gunfighting, mob violence, the personal crises of those in power—the collective awareness that is Warlock must face its own inescapable Horror: that what is called society, with its law and order, is as frail, as precarious, as flesh and can be snuffed out and assimilated back into the desert as easily as a corpse can. It is the deep sensitivity to abysses that makes Warlock one of our best American novels. For we are a nation that can, many of us, toss with all aplomb our candy wrapper into the Grand Canyon itself, snap a color shot and drive away; and we need voices like Oakley

Hall's to remind us how far that piece of paper, still fluttering brightly behind us, has to fall." —Thomas Pynchon

Conrad Richter: A Writer's Life is the story of an aspiring writer who failed and then, desperate for money, tried again and wrote himself out of penny-a-word pulp magazines and into a Pulitzer Prize and a National Book Award. Johnson's biography will engage anyone interested in the art of biography and in a novelist's act of writing. Admirers of Richter's novels will also find much of interest in his life. So, too, will those who find value in the story of a man who, despite his sense of himself as an imperfect vessel for God's plan for human evolution, lived his life with as much grace, determination, and courage as he could. From the New York Times and USA Today bestselling author of *The Alice Network* and *The Rose Code* comes a historical saga about obsession, betrayal, and destiny. Sabina may be Empress of Rome, but she still stands poised on a knife's edge. She must keep the peace between two deadly enemies: her husband Hadrian, Rome's brilliant and sinister Emperor; and battered warrior Vix, her first love. But Sabina is guardian of a deadly secret: Vix's beautiful son Antinous has become the Emperor's latest obsession. Empress and Emperor, father and son will spin in a deadly dance of passion, betrayal, conspiracy, and war. As tragedy sends Hadrian spiraling into madness, Vix and Sabina form a last desperate pact to save the

Empire. But ultimately, the fate of Rome lies with an untried girl, a spirited redhead who may just be the next Lady of the Eternal City.... From Alexander von Humboldt to Charles and Anne Lindbergh, these are stories of people of great vision and daring whose achievements continue to inspire us today, brilliantly told by master historian David McCullough. The bestselling author of Truman and John Adams, David McCullough has written profiles of exceptional men and women past and present who have not only shaped the course of history or changed how we see the world but whose stories express much that is timeless about the human condition. Here are Alexander von Humboldt, whose epic explorations of South America surpassed the Lewis and Clark expedition; Harriet Beecher Stowe, "the little woman who made the big war"; Frederic Remington; the extraordinary Louis Agassiz of Harvard; Charles and Anne Lindbergh, and their fellow long-distance pilots Antoine de Saint-Exupéry and Beryl Markham; Harry Caudill, the Kentucky lawyer who awakened the nation to the tragedy of Appalachia; and David Plowden, a present-day photographer of vanishing America. Different as they are from each other, McCullough's subjects have in common a rare vitality and sense of purpose. These are brave companions: to each other, to David McCullough, and to the reader, for with rare storytelling ability McCullough brings us into the times they knew and their very uncommon lives. From the time of its first publication in 1960, Conrad Richter's *The Waters of Kronos* sparked lively debate about the extent to which its story of a belated return to childhood scenes mirrored key events of Richter's own life. As was well known at

the time, Richter had spent several years in the Southwest, where he collected the material for his first successful book, *Early Americans and Other Stories*, but by 1933, he had returned to live in his hometown, Pine Grove, Pennsylvania. John Donner, the main protagonist in *The Waters of Kronos*, traces a similar route from west to east, although he finds that his family home and native town have been submerged under the deep waters of a lake formed by the construction of a hydroelectric dam. As Richter narrates his alter ego's efforts to salvage his past, he moves beyond "semi-autobiography" to offer what are widely recognized as his most haunting reflections upon the power of family history, the fragility of human memory, and art's role in structuring the communal ethos. David McCullough, a fellow Pulitzer Prize winner, met and befriended Richter in the 1960s and has called him "an American master," praising *The Waters of Kronos* as "his most beautiful book." #1 NEW YORK TIMES BESTSELLER Pulitzer Prize-winning historian David McCullough rediscovers an important and dramatic chapter in the American story—the settling of the Northwest Territory by dauntless pioneers who overcame incredible hardships to build a community based on ideals that would come to define our country. As part of the Treaty of Paris, in which Great Britain recognized the new United States of America, Britain ceded the land that comprised the immense Northwest Territory, a wilderness empire northwest of the Ohio River containing the future states of Ohio, Indiana, Illinois, Michigan, and Wisconsin. A Massachusetts minister named Manasseh Cutler was instrumental in opening this vast

territory to veterans of the Revolutionary War and their families for settlement. Included in the Northwest Ordinance were three remarkable conditions: freedom of religion, free universal education, and most importantly, the prohibition of slavery. In 1788 the first band of pioneers set out from New England for the Northwest Territory under the leadership of Revolutionary War veteran General Rufus Putnam. They settled in what is now Marietta on the banks of the Ohio River. McCullough tells the story through five major characters: Cutler and Putnam; Cutler's son Ephraim; and two other men, one a carpenter turned architect, and the other a physician who became a prominent pioneer in American science. They and their families created a town in a primeval wilderness, while coping with such frontier realities as floods, fires, wolves and bears, no roads or bridges, no guarantees of any sort, all the while negotiating a contentious and sometimes hostile relationship with the native people. Like so many of McCullough's subjects, they let no obstacle deter or defeat them. Drawn in great part from a rare and all-but-unknown collection of diaries and letters by the key figures, *The Pioneers* is a uniquely American story of people whose ambition and courage led them to remarkable accomplishments. This is a revelatory and quintessentially American story, written with David McCullough's signature narrative energy.
