The Garland Handbook of Southeast Asian Music is comprised of essays from The Garland Encyclopedia of World Music: Volume 4, Southeast Asia (1998). Largely revised and updated, the essays offer detailed, regional studies of the different musical cultures of Southeast Asia and examine the ways in which music helps to define the identity of this particular area. Part one provides an in-depth introduction to the area of Southeast Asia and explores a series of issues and processes, such

as colonialism, mass media, spirituality, and war. The articles in this section are important in gaining historical, political, and social perspective. Part two focuses on mainland Southeast Asia, with essays representing Cambodia, Thailand, Laos, Burma, Peninsular Malaysia, Vietnam, Singapore, and the minority peoples of mainland Southeast Asia. Part three focuses on island Southeast Asia, dividing the area into three sections: Indonesia, the Philippines, and Borneo. In addition to offering a detailed study of the music of each area, it also offers recent perspectives on the gamelan and theater traditions of Indonesia. Questions for Critical Thinking at the end of each major section guide and focus attention on what issues - musical and cultural - arise when one studies the music of Southeast Asia - issues that might not occur in the study of other musics of the world. An accompanying compact disc offers musical examples from Southeast Asia. Ninety-five years of collector vehicles are presented in

A landmark work of more than one hundred scholars, *The Heritage Guide to the Constitution* is a unique line-by-line analysis explaining every clause of America's founding charter and its contemporary meaning. In this fully revised second edition, leading scholars in law, history, and public policy offer more than two hundred updated and incisive essays on every clause of the Constitution. From the

Two decades after the fall of communism in Eastern Europe and one decade into the twenty-first century, European music remains one of the most powerful forces for shaping nationalism. Using intensive fieldwork throughout Europe -- from participation in alpine foot pilgrimages to studies of the grandest music spectacle anywhere in the world, the Eurovision Song Contest -- Philip V. Bohlman reveals the ways in which music and nationalism intersect in the shaping of the New Europe. *Focus: Music, Nationalism, and the Making of the New Europe* begins with the emergence of the European nation-state in the Middle Ages and extends across long periods during which Europe's nations used music to compete for land and language, and to expand the colonial reach of

Europe to the entire world. Bohlman contrasts the "national" and the "nationalist" in music, examining the ways in which their impact on society can be positive and negative -- beneficial for European cultural policy and dangerous in times when many European borders are more fragile than ever. The New Europe of the twenty-first century is more varied, more complex, and more politically volatile than ever, and its music resonates fully with these transformations.
