An unprecedented eyewitness account of the New York School, as seen between the lines of O'Hara's poetry Joe LeSueur lived with Frank O'Hara from 1955 until 1965, the years when O'Hara wrote his greatest poems, including "To the Film Industry in Crisis," "In Memory of My Feelings," "Having a Coke with You," and the famous Lunch Poems—so called because O'Hara wrote them during his lunch break at the Museum of Modern Art, where he worked as a curator. (The artists he championed include Jackson Pollock, Joseph Cornell, Grace Hartigan, Jane Freilicher, Joan Mitchell, and Robert

Rauschenberg.) The flowering of O'Hara's talent, cut short by a fatal car accident in 1966, produced some of the most exuberant, truly celebratory lyrics of the twentieth century. And it produced America's greatest poet of city life since Whitman. Alternating between O'Hara's poems and LeSueur's memory of the circumstances that inspired them, *Digressions on Some Poems by Frank O'Hara* is a literary commentary like no other—an affectionate, no-holds-barred memoir of O'Hara and the New York that animated his work: friends, lovers, movies, paintings, streets, apartments, music, parties, and pickups. This volume, which includes many of O'Hara's best-loved poems, is the most intimate, true-to-life portrait we will ever have of this quintessential American figure and his now legendary times. In the 17th century, harmonious sounds were thought to represent the well-ordered body of the obedient subject, and, by extension, the well-ordered state; conversely, discordant, unpleasant music

represented both those who caused disorder (murderers, drunkards, witches, traitors) and those who suffered from bodily disorders (melancholics, madmen, and madwomen). While these theoretical correspondences seem straightforward, in theatrical practice the musical portrayals of disorderly characters were multivalent and often ambiguous. O Let Us Howle Some Heavy Note focuses on the various

ways that theatrical music represented disorderly subjects--those who presented either a direct or metaphorical threat to the health of the English kingdom in 17th-century England. Using theater music to examine narratives of social history, Winkler demonstrates how music reinscribed and often resisted conservative, political, religious, gender, and social ideologies.
