172 pages, and more than 140 illustrations and charts, size 8.25 x 10.75 inches. Owners of Norton Commando motorcycles are subjected to considerable confusion surrounding the selection of an appropriate workshop manual from the multitude of originals and reprints that have recently flooded the on-line marketplace. Many of the reprints found on internet websites are from 'bedroom sellers' at enticingly low prices by individuals that really have no idea what they are selling. Many are nothing more than

poor quality comb-bound photocopies that are scanned and printed complete with greasy pages and thumbprints and, as such, are deceptively described as 'pre-owned'. In addition, they are often advertised for the incorrect series and/or model years of motorcycles. The Norton Commando model range is especially subjected to incorrect identification by these 'bedroom sellers' and you are encouraged to read the paragraph below to help identify the correct manual for your model. During the 1968 to 1978 Commando model run there were 4 different manuals published by the factory: The original 52 page 750cc manual

(part number 06-3062) is applicable to the 1968 to 1970 models ONLY that were fitted with the external rev-counter drive and/or the Atlas style exhaust (refer to ISBN 9781588502421). This original manual was followed by part number 06-3419 which covers the 1970 to 1973 750cc models ONLY. The next, and most comprehensive manual, part number 06-5146, was published in 1973 and the 850cc data was added making this manual applicable to the entire range of 750cc & 850cc models from 1970 to 1975. Finally, with the introduction of the electric start, left side gear change, rear disc brake Mark 3 models in 1975, a separate

manual part number 00-4224 was published which is specific to the 1975 to 1978 MKIII 850cc series from engine no. 325001 & frame no. F125001. We are pleased to offer this reproduction of the Factory Workshop Manual 06-5146 to owners of the 1970 through 1975 models and we hope that the explanation above removes any doubt regarding which manual is correct for a particular series of Norton Commando model. Models and model years covered in this manual are: Interstate: 745cc 1972-1973 & 828cc 1973-1975 Roadster: 745cc 1970-1973 & 828cc 1973-1975 Hi-rider: 745cc 1971-1973 & 828cc 1973-1975 Interpol: 745cc

Haynes Manuals have a new
look! To ensure the continued
success of one of the industry's
most dynamic manual series,
Haynes has color coded their
covers by manufacturer and
replaced the familiar cover
artwork with computer-
generated cutaway
photography. By Summer 2000,
80 percent of Haynes manuals
will have the colorful new
design. Inside, enthusiasts will
find the same reliable
information -- whether the
reader has simple maintenance
or a complete engine rebuild in
mind, he or she can rest
assured that there's a Haynes
Manual for just above every
popular domestic and import
car, truck, and motorcycle.

Hundreds of illustrations and
step-by-step instructions make
each repair easy to follow.

It has been continually updated for over a quarter of a century. Author Dave Richardson has 34 years of experience working in Moto Guzzi dealerships. Guzziology has been purchased by Guzzisti in all 50 US states, all 10

Canadian provinces, all 7 continents (Yes, someone ordered a copy from Antarctica!), and over 40 countries. This is the latest version, Version 9. This book fits somewhere between a service parts list and a workshop manual. The intention is to provide information about the Australian Morris 850 that will provide a historical record of how the vehicle was constructed, as well as detailed parts identification information for those engaged in its restoration. With excerpts from over 500 of the original factory drawings, this book presents an unprecedented level of detail much of which has never been

seen before. After viewing the information in this book, the reader will readily appreciate the incredible effort expended by the company during the design and construction of these motor historic vehicles. hundreds of illustrations and step-by-step instructions, this compendium of repair, modification and troubleshooting advice is applicable to all domestic and import marques. Some 40 years ago, Leyland Australia ceased manufacturing passenger vehicles in Australia. These days, many of the cars produced by Nuffield (Australia), the Austin Motor

Company (Australia) the British Motor Corporation (Australia), British Leyland Motor Corporation of Australia and Leyland Australia from 1950 to 1982 remain popular and have become classics. Of particular interest to present day owners, registration authorities, car club officials, as well as motoring and engineering historians, is a record of what BMC/Leyland passenger vehicles were produced and the

means by which they were identified. Our aim in this book is to provide an authoritative reference to this end. Haynes disassembles every subject vehicle and documents every step with thorough instructions and clear photos. Haynes repair manuals are used by the pros, but written for the do-it-yourselfer.
